Subject: Internal review of access to documents request - Concerning Medical Negligence

Dear Health and Food Safety,

subject: medical negligence complaints

I've downloaded the complaint form. Thank you.

As a citizen of the EU, I am able to call upon it for assistance. And, that I should choose to submit a complaint form, assistance would serve me; whether or not it is required. If you are not competent to assist citizens then kindly confirm the same and identify sources of assistance available.

enclosed some messages:

Dear Health and Food Safety,

Please pass this on to the person who reviews confirmatory applications. I am filing the following confirmatory application with regards to my access to documents request

'Concerning Medical Negligence': Having not received response, I again present my message:

[originally sent July 2018]

Dear Health and Food Safety,

In a previous message you identified my obligations to you in order to process my FOI query. Perhaps you'd do me the courtesy of confirming your obligations to me; refer to the 2nd paragraph of my last message. I am not planning to supply you with address details. I enclose both my last message and originating request:

Dear Health and Food Safety,

Thank you for your response. Please pass this on to the person who reviews confirmatory applications. I am filing the following confirmatory application with regards to my access to documents request

'Concerning Medical Negligence'.

With respect: whether or not the DG requires such information, it remains competent to offer at least some guidance; assist the information seeker in accordance with its own rules, whether or not the requested information [my address details] is offered. There's no evidence you choose to do so. Would you kindly explain?..

Originating Query: May 2017

Dear Health and Food Safety,

Under the right of access to documents in the EU treaties, as developed in Regulation 1049/2001, I am

requesting documents which contain the following information:  
as you are able, would you kindly identify any material you hold (such as  
guidelines, white papers or  
policy documents) dealing with medical negligence complaints which  
identifies your competency in  
assisting the citizen..

Yours faithfully,
