**Subject:** RE: DDL 19/06: Access to document request - Interservice consultation Farm to Fork

Dear Colleagues,

DG Budget agrees with the disclosure of its opinion to the inter-service consultation on the Farm to Fork strategy (as below), asking at the same time that references to individual units and peoples are deleted.

Kind regards,

[REDACTED]

DG BUDGET ISC reply: "In the absence of the legislative financial statement, DG BUDG understands that there is no impact of the proposed "Communication... on the Farm to Fork Strategy for a Sustainable Food System" other than the one already foreseen in the current financial programming and in the Commission proposal for the new MFF 2021-27. As the MFF has not been adopted, measures should in any case be accommodated within the final allocation of future programmes. DG SANTE is kindly requested to confirm our understanding in writing."
