Subject: Wide industry coalition call for a Hydrogen Strategy inclusive of all clean hydrogen pathways
Date: mercredi 24 juin 2020 17:02:48
Attachments: [To the attention of Commissioner Breton - Industry letter Clean Hydrogen 20200624.pdf](#)

Dear Commissioner Breton,

On behalf of a wide coalition comprising EU manufacturing industry, the gas industry, trade unions, energy technology producers and other sectors, we call on the EU to adopt in its upcoming Hydrogen Strategy **a technology-neutral approach to hydrogen, so that all clean hydrogen technologies can be used to unlock the nascent hydrogen market**, while developing EU hydrogen ecosystems to ensure the competitiveness of EU industry and secure high-quality jobs for Europeans.

Please find enclosed our position in the attached letter.

Thank you for considering our requests, which we deem crucial for Europe to create opportunities and remain in the lead, not only in the deployment, but also in the manufacturing of clean technologies such as hydrogen, in the short-, mid-, and long-term both for economic growth, public acceptance and decarbonization.

We are available to discuss any of this further at your earliest convenience.

Best,

[REDACTED]

GasNaturally Steering Committee
