Summary of the discussion:

Fuels Europe/CONCAWE had proposed a meeting with GROW to discuss on-going issues with the implementation of REACH and the forthcoming chemicals strategy for sustainability

- Chemicals strategy

GROW explained that the chemicals strategy for sustainability has been announced as part of the Green Deal communication. The Commission is working to prepare the strategy and adoption is planned for the end of the summer or early autumn. GROW informed that the roadmap had been recently published and was open for feedback until 20 June. GROW highlighted that giving such a feedback is the most effective and transparent way for actively contribute to the preparation of the Strategy.

Fuels Europe/CONCAWE also enquired about the Commission plans for the REACH review 2022. GROW explained that the focus now is on the chemicals strategy, as it will establish the lines for chemicals policy in the coming years and several options may be considered, including possible changes to the REACH Regulation.
