On Friday, May 27th, Nadia Calviño, Emil Paulis, Jan Ceysens, Muriel Jakubowicz, Anita Wieja, Christoph Schieble, and Jasper Jorritsma met with [REDACTED] of ICE Futures Europe, and [REDACTED] of Brunswick.

With regards to commodities, they welcome further transparency.

ICE will start publishing commitment of traders reports in three weeks time. These will be based on the CFTC categories. However, the reports will not be the same as those of the CFTC, as the categorisation of individual firms into these categories is proprietary information.

For Brent and WTI contracts, ICE are considering the introduction of further position limits around expiry dates. New limits will be based on the relative size of delivery capacity and open interest. They consider that market operators should administer position limits.
