17:15 – 17:45	Coffee break: informal exchange	
17:45 – 18:30	[REDACTED] Alliance Agenda Shaping: "What do we need for implementation"	<ul style="list-style-type: none"> Opening by the Executive Vice President of the EU COM Frans Timmermans Discussion on how can the private and public sector jointly push implementation
18:30 – 19:15	[REDACTED] Alliance Next Steps: "How we will move forward"	<ul style="list-style-type: none"> Reflection/ Discussion on the call with the EU COM Core options for the way forward of the [REDACTED] Alliance Responsibilities for Transformational Initiatives and Joint Projects
19:15 – 19:30	Closing remarks	<ul style="list-style-type: none"> Reflection of each [REDACTED] Joint photo shooting
19:30 – 20:15	 Transfer: individual Taycan test drive	
20:15 – 22:30	Dinner and informal exchange	

Call with the Executive Vice President of the European Commission, Frans Timmermans:
 participation of companies/ [redacted]

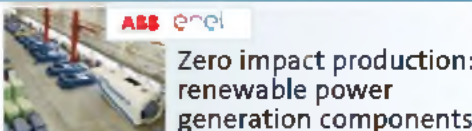

Company		Participation	Physical	Virtual
ABB	[redacted]	✓	✓	
AkzoNobel	[redacted]	✓	✓	
e-on	[redacted]	✓		✓
enel	[redacted]	✓		✓
IBERDROLA	[redacted]	✓		✓
MAERSK	[redacted]	✓		✓
SAP	[redacted]	✓	✓	
SCANIA	[redacted]	✓	✓	
Schneider Electric	[redacted]	✓	✓	
VOLKSWAGEN	[redacted]	✓	✓	
	[redacted]	✓	✓	
	[redacted]	✓	✓	
		10+2	6+2	4

We are unique in our commitment to implementation: a "Take Action" Tank, not a Think Tank

Industry sectors and key enablers

Transformational Initiatives with cross-sector perspective

Status of discussion as of Sept 25
Logos indicate companies' own interest/ proposals

Sustainable Energy Systems	 Renewable power generation	 Large-scale energy storage	 Digitization and modernization of power grids	
Sustainable Mobility & Transport	 EV charging infrastructure (HPC)	 Low carbon transport of goods (rail-way, HDT, LDV)	 Low carbon shipping	
Sustainable Manufacturing and Industrial Processes	 Zero impact production: renewable power generation components	 Battery production: zero impact, closed loop recycling	 Low carbon steel	 Green hydrogen value chain
Sustainable Buildings, incl. urban development/ cities	 Future of living: rapid renovation, healthy sustainable buildings	 Future of work: zero emission offices	 Sustainable, resilient urban development/ cities	
Circular Business Models	 Carbon tracking w/ digital technologies in the supply chain	 Circular economy in wind power, storage and hybrid projects		
Sustainable Finance	 SEED: Sustainable Europe Empowering and Deployment	<p><i>E.g., for sustainable mobility, there is a need for low carbon steel supply, zero impact production, EV charging infrastructure, renewable power generation, and battery recycling. Also, H2 value chain covers manufacturing of electrolyers, operations/ production of H2 and deployment in energy, mobility and industrial processes</i></p>
