Dear ,

First of all I would like to thank you for your kind availability.

As agreed, I confirm the 22nd March at 16.30.

Next week I will send you the email addresses of the participants.

Best regards,

European Affairs

Dear ,

On behalf of Valère Moutarlier, thank you for your email.

Joan Canton, responsible member in the Cabinet of Commissioner Breton would be happy to organize a videoconference with Confindustria together with our colleagues in charge at DG GROW.

Monday 22 March at 15h30 would work out best for the agenda's.

I will send out a Skype videoconference link (recommended tool at the Commission) as soon as you confirm the email addresses of the participants.

Looking forward to hearing from you.

Kind regards,

Cabinet of Commissioner Thierry Breton

European Commission

Rue de la Loi 200 (BERL 10/265)

Objet: Follow up meeting Confindustria

Dear Valère,

Let me thank again for the meeting we had last week. As promised, I am writing to you to organize a follow up on the main challenges the Italian industries will face in the coming years in relation to some of the main Commission policies proposals. Trying to be concrete and effective, I would like to touch upon three issues:

- **The path towards a sustainable industry**, with a focus on the role chemicals will play in the achievement of the EU green objectives and the actual impact of the energy transition process on manufacturing supply chains.
- **The automotive sector**. As you know this industrial sector is facing concerns on different dossiers, in which DG GROW is involved, such as Real Driving Emissions (RDE), Euro 7 and Euro VII air quality pollutant emission limits for respectively Light and Heavy Duty Vehicles, the level of legal uncertainty regarding the implementation of the General Safety Regulation (GSR) and the need for an adjustment of the Stage V transitional provisions of the NRMM. In each of these dossier the European industry is leading at global level for innovation and investments, and still among the first employers sector in the EU;
- **The "Farm to Fork" (F2F) strategy**. We think that this strategy should recognize - when it comes to the effects on climate, biodiversity or environment - that there are no sustainable or unsustainable sectors, but sustainable and unsustainable business practices. Hence, the strategy should focus on production methods, not on products/sectors. Likewise, when it comes to healthy eating it should focus on diets and not on single nutrients/ingredients or foods: a healthy, balanced diet means eating a wide variety of foods in the right proportions.

Concerning the format of the meeting we would like to involve a limited number of stakeholders from our side (two or three persons for each issue for the sectorial associations or companies). But of course this is only my proposal.

The idea would be to have an open dialogue to strike together the best collective balance, taking into account the current situation.

I would propose some tentative dates and time slots to set the meeting, please let me know if one of this could fit your agenda, otherwise feel free to propose other options.

- 18 March anytime from 9.00 to 1.00 or 4.30 alle 6.00

- 19 March anytime from 9.00 alle 1.00 or 4.00 alle 6.00

- 22 March anytime from 3.30 to 5.00

I look forward to hearing from you.

Best Regards,
