**Subject:** Letter from MEPs to the Commission on the first delegated act on taxonomy  
**Date:** mercredi 14 avril 2021 19:23:23  
**Attachments:** [Letter to the Commission on the delegated act on taxonomy.pdf](#)

---

Dear Executive Vice-Presidents,

Dear Commissioners,

We are writing to you regarding the upcoming adoption of the delegated act on an EU classification for sustainable investments.

We wish to convey our deep concerns with the second draft delegated act that was recently circulated.

While we firmly believe in the importance of establishing a classification for sustainable investments, we want to stress that we have a duty to adopt a taxonomy that is as accurate and as coherent as possible, as it will have an unprecedented impact across European economic sectors.

Unfortunately, we fear that the delegated act as it stands may not rise to the challenge. Despite the numerous feedback from civil society, industries, parliamentarians and governments, significant inconsistencies still remain. Furthermore, we express our concerns with the overall process of elaboration of this delegated act, which was carried out with little regard for inter-institutional relations and transparency.

Sincerely,

Christophe GRUDLER
