[Letter from Eurima to the European Commission on Taxonomy - March 10 2021.pdf](#)

Dear Executive Vice-Presidents,

Dear Commissioners,

Please find attached an urgent letter signed by the Board of Eurima, the European Insulation Manufacturers Association, on the draft EU Taxonomy Delegated Act on Climate Change Mitigation and Adaptation.

Following up to our contribution to the EU Public Consultation and subsequent outreach to the European Commission services on this important subject and aware of the ongoing review process, we would like to reiterate our strong concerns about the way the manufacturing of (mineral wool) insulation is categorized in the draft EU Taxonomy Delegated Act as well as our need to better understand the methodology used to support this choice.

Although we understand that our previous reactions have been received, at this stage, we lack the necessary visibility on the ongoing process and review allowing us to conclude that our concerns will be taken on board or decisions substantiated.

We sincerely hope that the abovementioned issue is indeed considered in the ongoing process by the European Commission. We remain available to further discuss with you our suggestions and support the Commission in its further effort to design and review the taxonomy.

Your sincerely,

[REDACTED]
