Dear [REDACTED],

Please accept my apologies for the lateness in my reply. Tanks you very much for the proposed meeting.

Next week Thursday or Friday (October 1 or 2) look like good days on my side. I copy my administrative assistant with whom you can finalize an actual date and timing.

Thank you very much,

[REDACTED]

European Commission
Cabinet of the Executive Vice President

Dear [REDACTED],

I hope this email finds you well.

Did you get the chance to consider the meeting request below?

In addition to our brand new tool for the assessment of the **EU NECP**, we would be keen to discuss the upcoming renovation wave initiative.

In particular we would like to present you an internal analysis we have made on the **feasibility of a EU solar rooftop program**, which includes the potential for RES generation, an estimation of investment needs and proposals for the financing and governance framework.

I look forward to your reply and wish you a lovely day.

Best regards,

[REDACTED]

Importance: High

Dear [REDACTED],

I hope this email finds you well and that you had a wonderful summer break.

Our [REDACTED] would be delighted to have the opportunity of organizing a short conversation with you, to present you the latest activities of SolarPower Europe and exchange with you on critical files for the European Solar Industry.

We would like to discuss notably the ongoing inception impact assessment on the review of the Renewable Energy Directive, and present to you our new tool and final assessment of EU NECP's based on the priority areas identified by our sector. This would be a useful exercise to feed-in your important work on the review of the EU 2030 CO2 targets, and prepare the ground for fully climate friendly – and ambitious! – National Recovery and Resilience plans.

Would you be available for such an online exchange in the coming days/weeks?

Looking forward to your reply, I remain at your disposal for further information and wish you a lovely day.

Best regards,

[REDACTED]

Subject: RE: SolarPower Europe_Request for online exchanges and invitation to participate to a Webinar on Solar cities

Dear sir,

Thank you very much for your kind invitation and apologies for not having been able to respond sooner.

I am afraid, my current agenda does not allow me to take part at the event. Should there be a summary of the proceedings of the meeting, however, I would be very grateful if you could send them to me.

Best regards,

European Commission
Cabinet of the Executive Vice President

Importance: High

Dear [REDACTED],

I hope you are well.

I allow myself to come back to you regarding the invitation below, to participate to a Webinar on **“Solar cities and regions – Unlocking the EU’s Rooftop potential”**. The workshop is hosted by [REDACTED], and aims at exploring the climate and societal contribution of ambitious “Rooftop Solar programs” which have been developed by EU regions and cities.

SolarPower Europe is convinced in particular, that **rooftop solar installations can play a critical role within the upcoming renovation wave initiative**, to complement building renovations with a fully sustainable and locally owned energy supply strategy. We would be delighted to discuss that with you at this occasion, if you could honor us with your presence as a representative of the European Commission.

I remain at your entire disposal should you need additional information, and wish you and your team a lovely evening.

Best regards,

[REDACTED]

Dear [REDACTED],

I hope this message finds you well in these special times.

It is a pity that we could not meet at the occasion of our exchanges with [REDACTED] however I do hope these precautionary measures were effective and you are now safe and healthy!

I was hoping that we could schedule a call, at a time of your convenience, to discuss the ongoing European Green Deal impact assessments and to exchange on the Renovation Wave initiative.

On this last point I would also like to let you know that we are planning to hold an online webinar on the 22nd of April from 9 to 10:30 am on the contribution of solar rooftop programs to decarbonize the EU building stock. The webinar will be hosted by [REDACTED] and [REDACTED] and **we would be thrilled if you could join us for these online exchanges.**

In particular, we would like to offer you a 10 minute “right of reply” to present the perspectives of the European Commission, following the presentations of the MEPs as well as and regional authorities representatives that are showing the way on how solar can be part of a successful policy equation to decarbonize the EU’s building stock.

I attach a description of the webinar which includes a draft agenda.

I look forward to exchanging with you and wish you a lovely day.

Best regards,

[REDACTED]
