EU Exemptions in relation to PFOA related substances.pdf; Plasma Nano-Coating
POPS Exemption Report.pdf

Dear

I'm sending this email on behalf of . It concerns the forthcoming Conference of Parties where the regulation regarding PFOA-related substances will be finalised. In the EU REACH regulation for PFOA and related substances, the use of plasma nano-coatings has an exemption until 4th July 2023, and we would like to present the case that the same exemption is applied to the final wording for PFOA-related substances under the Stockholm Convention.

The first attachment is a letter from which the point in more detail and the second is a Socio-Economic Analysis detailing the benefits of plasma nano-coatings.

We would be grateful if you could treat the identity of this company as highly confidential.

Thank you for your consideration and please contact me if you have any questions.

Regards
