Subject: GRTgaz/ feedback on the revision of EU rules on market access – gas networks

Dear Mr [REDACTED]
Dear Mr [REDACTED]

I get back to you following our meeting on February 16th. We would like to share with you our feedback on the revision of the EU gas market rules that we submitted last Wednesday, March 10th.

Our contribution stays very short, we took the opportunity to recall the main principles we would like to see in the future hydrogen market framework: early and gradual development of a “target market model” compatible with electricity and gas models ; Third-Party Access to infrastructure in a non-discriminatory and transparent manner ; a coordinated infrastructure planning between hydrogen, gas and electricity infrastructure; an adequate level of standardization of hydrogen quality.

We will keep on deepening our reflections internally and will be ready to provide a comprehensive feedback during the public consultation expected in June.

We thank you and remain with [REDACTED] at your disposal for further discussion or any additional information,
Kind regards,

[REDACTED]
