The rapporteur presented the draft letter on this topic, which clarifies that the EDPB directly cannot enforce, but that this falls onto the national data protection authorities. Further, the letter highlights that some national authorities have already contacted their national governments.

It was also clarified that this kind of agreement is not subject to prior authorisation of the SA or the EDPB and that those agreements, if they were adopted prior to the GDPR becoming applicable, stay valid until amended.

It was discussed that in some member states the SAs are not empowered to act on these agreements if they are not directly involved in the agreement. Additionally, some SAs confirmed that they have not received any complaints on this issue. However, some SAs have received individual complaints.

The draft letter was approved in its current form, with a possible addition of a reference to national complaints. The rapporteur will prepare the info note and the document will be submitted to the July Plenary meeting.
