Subject: RE: Question: DG SANTE unit heading EU Therapeutics Strategy

Dear [REDACTED],

Thank you for your interest in the EU strategy for Covid-19 therapeutics.

The aim of this strategy is to put in place a mechanism to speed up the entire process of development of therapeutics (encompassing clinical research and clinical trials, the manufacturing, the purchase and the availability of the products in the EU).

The majority of the actions foreseen in the strategy are at an early stage of development and they will be defined more in detail in the near future. The Commission is preparing an action plan which involves a number of different services and units inside DG SANTE.

The Unit 'Health Emergency Response and Vaccines' ([organisation-chart-dg-sante_en.pdf \(europa.eu\)](#)) is dealing with the intensive work on vaccines and the Health Emergency Preparedness and Response Authority (HERA), notably regarding the HERA Incubator against COVID-19 variants.

Kind regards

To SANTE INFO,

Thank you for getting back to me so quickly.

We are most interested by the activities listed as preparatory actions under the future European Health Emergency and response authority including: scanning for candidate therapeutics, and the 'therapeutics innovation booster'. We are also interested in the actions listed under the joint procurement and financing section.

We would particularly like to understand how these will be carried out and by which DG/ unit. Also, what role will the DG SANTE Unit on Health Emergency Response and Vaccines take?

Best regards,

Subject: Question: DG SANTE unit heading EU Therapeutics Strategy

Dear ,

I just rang regarding the press release on the EU Therapeutics Strategy. Could you please let me know which unit in DG SANTE will be leading on this file?

Thank you and have a great day!
