Dear panellists,

I had the opportunity to exchange with most of you on tomorrow's panel. I collected proposed topics in a sort of script for our interaction.

The overall idea is to build the following story:

1. Sketch of the ambition/objectives for decarbonizing transport by DG Move
2. Viewpoints from the transport industry (maritime and road) on what it takes to successfully establish a new technology/fuel & what legislators and the LNG industry can do to help
3. Presentation by an LNG player on which contributions are being given already now and on where he sees further potential.

Each member of the panel is invited to react to the others in order to have a lively debate. Whenever I spot diverging viewpoints I'll highlight those in order to trigger discussions.

Looking forward to meeting you (again),

Dear all,

I hope this message finds you well.

GIE Annual Conference is approaching, and I am taking this opportunity to connect you with the moderator of your panel, who is also our GLE [REDACTED] and GLE [REDACTED], [REDACTED] (in CC). Please find attached the latest agenda of the event – all speakers are confirmed. [REDACTED] will contact you to liaise with your desires for the discussion, how to better accommodate all views and create a dynamic, fruitful discussion.

We would like to propose the following format:

- 2-3 minutes introductory remarks / speaker
- Option for 1-2 slides with graphs/images/numbers that support your remarks
- All followed by an interactive discussion
- Please send to [REDACTED]/me any questions you'd like to be addressed during the discussion.

I am here for any other questions.

We look forward to seeing you in Lucerne!

Kind regards,

[REDACTED]
