Your applications for access to documents cover topics falling under the responsibility of different Commission services. In that regard, your requests were split into separate requests, whereby each part is attributed to the respective Commission service under a separate Gestdem reference number. Each service provides its own, separate reply, which relates only to the documents originating or received by that service. In this regard, this reply corresponds only to the documents held by the Directorate General for Climate Action.

We regret to inform you that DG CLIMA does not hold any documents that would correspond to the description given in your application.

As specified in Article 2(3) of Regulation (EC) No 1049/2001, the right of access as defined in that regulation applies only to existing documents in the possession of the institution.

Given that no such documents, corresponding to the description given in your application, are held by my service, DG CLIMA is not in a position to fulfil your request.

As regards points 4, 5 and 6 of your requests, please note that the list of meetings of the Director-General of Directorate-General for Climate Action with organisations and self-employed individuals is available in the link enclosed below:

<http://ec.europa.eu/transparencyinitiative/meetings/meeting.do?host=d41e42be-7ff1-4635-bb4f-e47d38f886ed>

In your application you requested access to a list of meetings of the staff of the Directorate-General for Climate Action. Please note that the officials of the European Commission having the status of Director-General shall make public information on all meetings held by them with organisations or self-employed individuals on issues relating to policy-making and implementation in the Union in accordance with the Commission Decision 2104/838/EU, Euratom of 25 November 2014¹. However, the same obligation does not apply to lower-ranking officials, such as the remaining members of the Directorate-General for Climate Action.

As specified in Article 2(3) of Regulation (EC) No 1049/2001, the right of access as defined in that regulation applies only to existing documents in the possession of the institution, that is to say, documents drawn up or received by it and in its possession, in all areas of activity of the European Union.

The Court of Justice held that ‘the right of access to documents of the institutions applies only to existing documents in the possession of the institution concerned and [...] Regulation No 1049/2001 may not be relied upon to oblige an institution to create a document which does not exist. It follows that, [...], an application for access that would require the Commission to create a new document, even if that document were based on information already appearing in existing documents held by it, falls outside the framework of Regulation No 1049/2001’².

In the present case, the Directorate-General for Climate Action does not hold any list of all meetings of its staff with the specific organisation concerned by your request in addition to the publicly available information on meetings of the Director-General, which is accessible via the abovementioned link. In this respect, I would like to confirm that compiling such a list in order to fulfil your request would equal to the creation of a new document, as neither can such a list be extracted from a database by means of a normal or routine search.

In accordance with Article 7(2) of Regulation (EC) No 1049/2001, you are entitled to make a confirmatory application requesting the Commission to review this position.

Such a confirmatory application should be addressed within 15 working days upon receipt of this letter to the Secretariat-General of the Commission at the following address:
