Dear [REDACTED],

as promised, please find attached the latest version of the final Energy Efficiency report, addressing your comments.

Please note that the report has not been reviewed by our editors/ proof-readers yet. We aim to send this for their review on Monday.

We look forward to hearing from you on this.

Best

Dear ,

I would like to share the feedback from our colleague with you.  
We have two major comments on the substance and the other  
comments are on the format or editorial.

- 1) P35 – the quoted part of the UCL report
- 2) P50 – interview part of ENERGY WEB; the subtitles of this  
section are inconsistent with the table of contents.

Please review the attached documents and if you need some  
clarification, please contact me.

Best regards,

---

FINAL VERSION

Dear , Dear ,

attached please find the final version (v5.0) of the thematic report  
on "Energy Efficiency of Blockchain Technology".

Based on the comments received this version of the report includes:

- a clarification of the bitcoin energy consumption (page 13),
- an overview of bitcoin mining ban policies in China, and
- the conclusions of the UCL CBT discussion paper.

All new entries are marked with track changes to facilitate the review  
process. Please review and let us know what you think, and if possible,

by when we can expect your feedback in order to plan for editorial review and publication.

Thank you so much in advance and we remain at your disposal,

Best regards
