

The EDPB Collaboration Tool

Goals and Objectives

- Document Storage
- Shared knowledge base
- Reduction in the amount of documents sent via e-mail
- Enhance the exchange of information between EDPB members.
- Comply with high security standards (data storage...).

IMI vs Collaboration Tool

IMI

- 📁 GDPR Cooperation & Consistency
- 📁 Draft and final EDPB documents
- 📁 Supporting case documents
- 📁 Plenary documents (in the future)

Collaboration Tool

- 📁 Knowledge base
- 📁 Judgements
- 📁 National Developments
- 📁 Calendars
- 📁 Subgroup related documents
- 📁 ..etc.

Proposed Solution?

ATLASSIAN
CONFLUENCE

What Is Confluence?

- Confluence is an IT platform used for the creating, organising, sharing, and collaborating of work or information in an organisation
- It can be provided by the European Commission
- It will be accessible via the internet using existing EU Login authentication services (same login account used for CIRCABC)
- Data is stored in the European Commission data centre

What Does Confluence Do?

- Controlled user access management
- Online document management
- Comment on documents/sections/pages/topics etc
- Forum topics
- Surveys
- Email notifications – subscribe and unsubscribe
- Shared calendars
- Multimedia (pictures, videos etc)
- Extensive search capabilities
- Statistics/charts

Questions?

EDPB Video Conferencing Solution

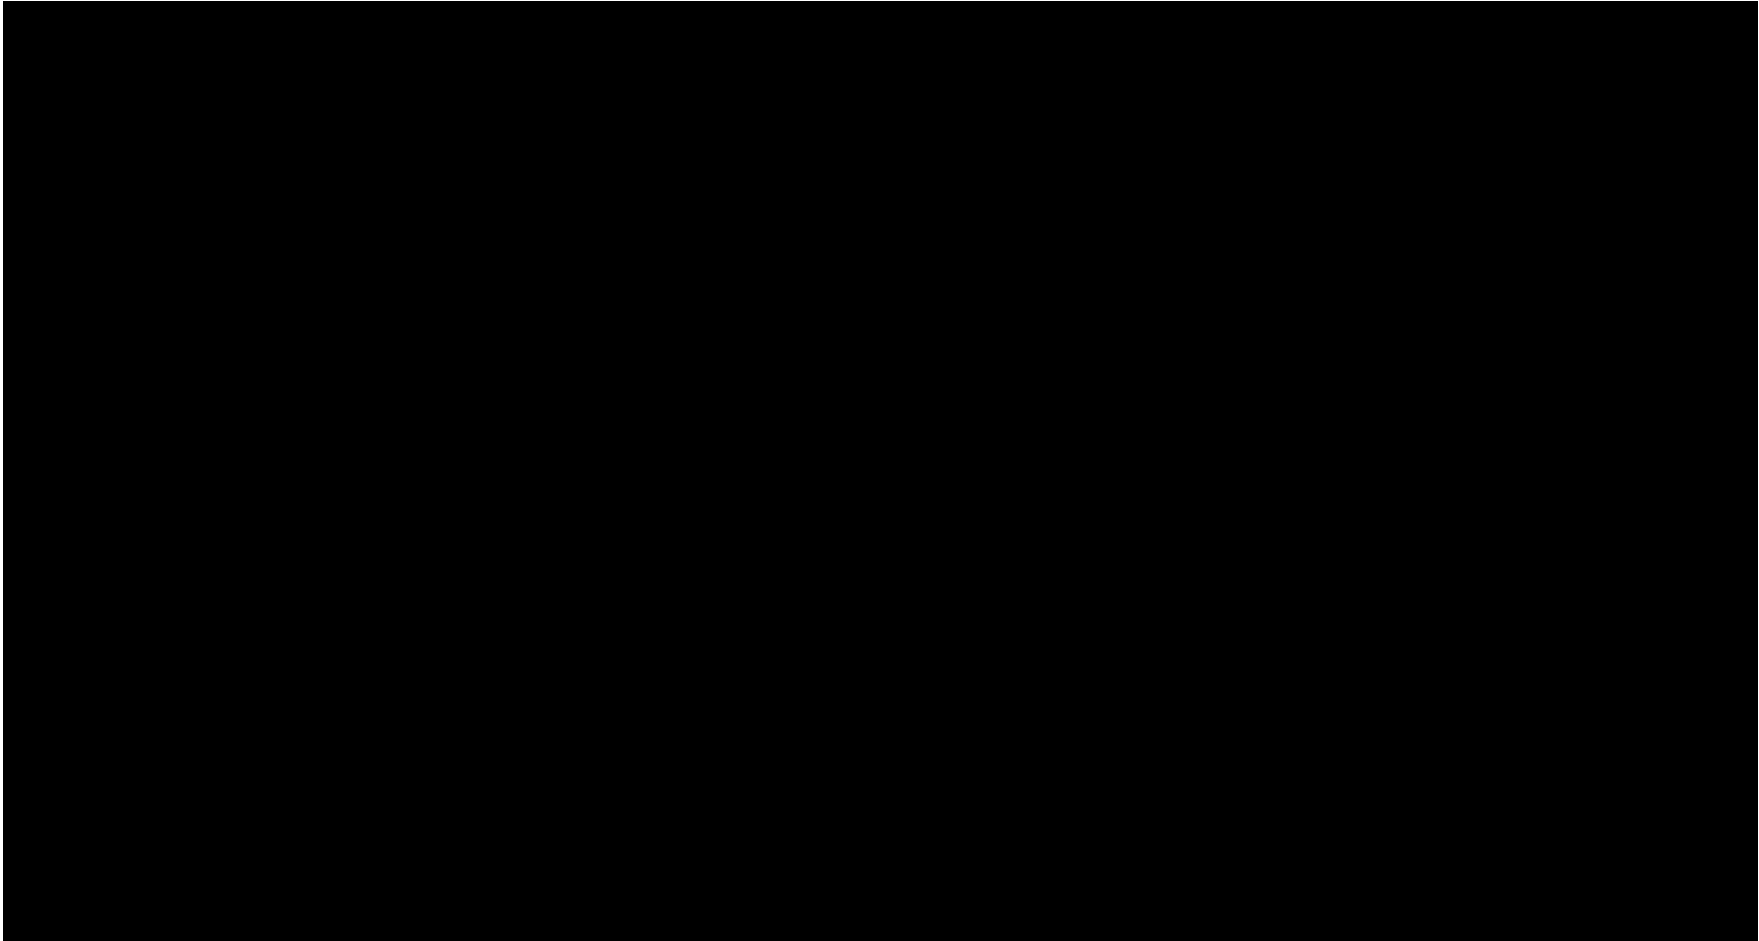

Goals and Objectives

- Allow for the attendance of subgroup meetings remotely
- Allow for the organization of ad-hoc virtual meetings for urgent issues
- Virtual content sharing
- Real-time group chat
- Secure communication

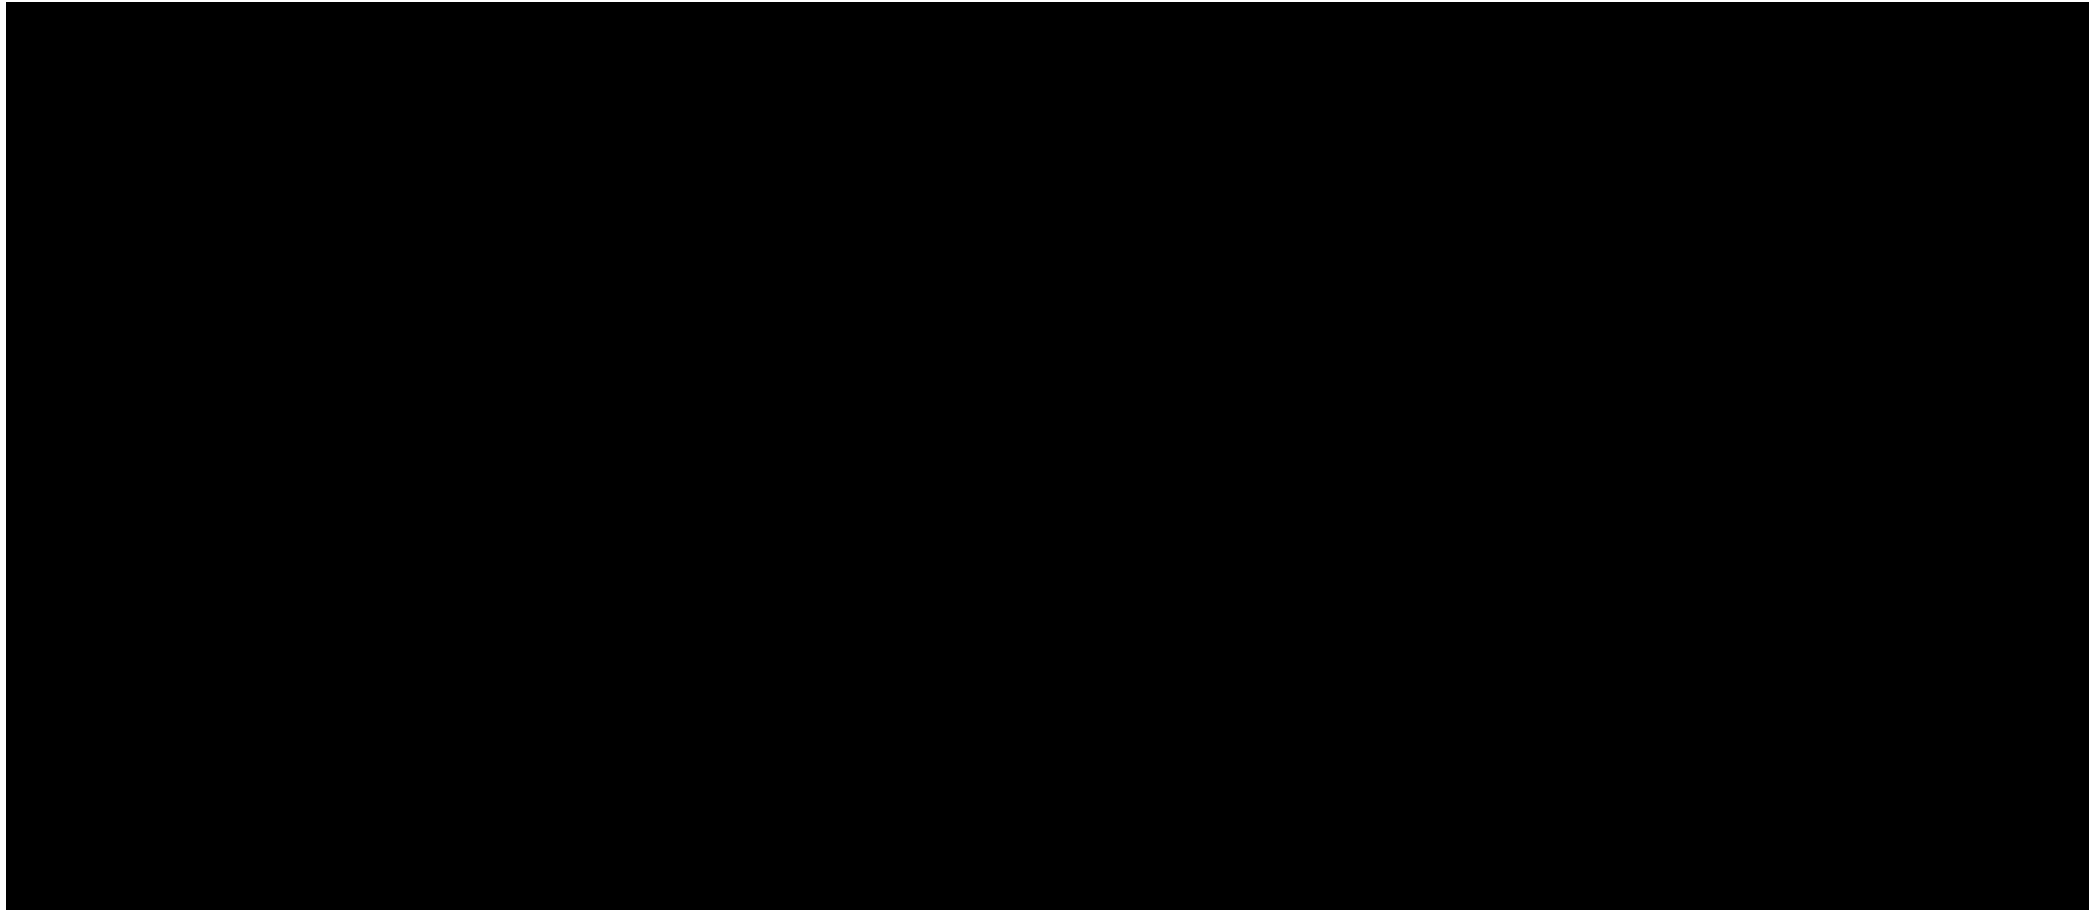

Proposed Solution?

Cisco Jabber
