

Final

(ITS Expert Subgroup) meeting
7-8 December 2021, Remote

Item 6: Certification as tools for transfers: finalise discussion of document

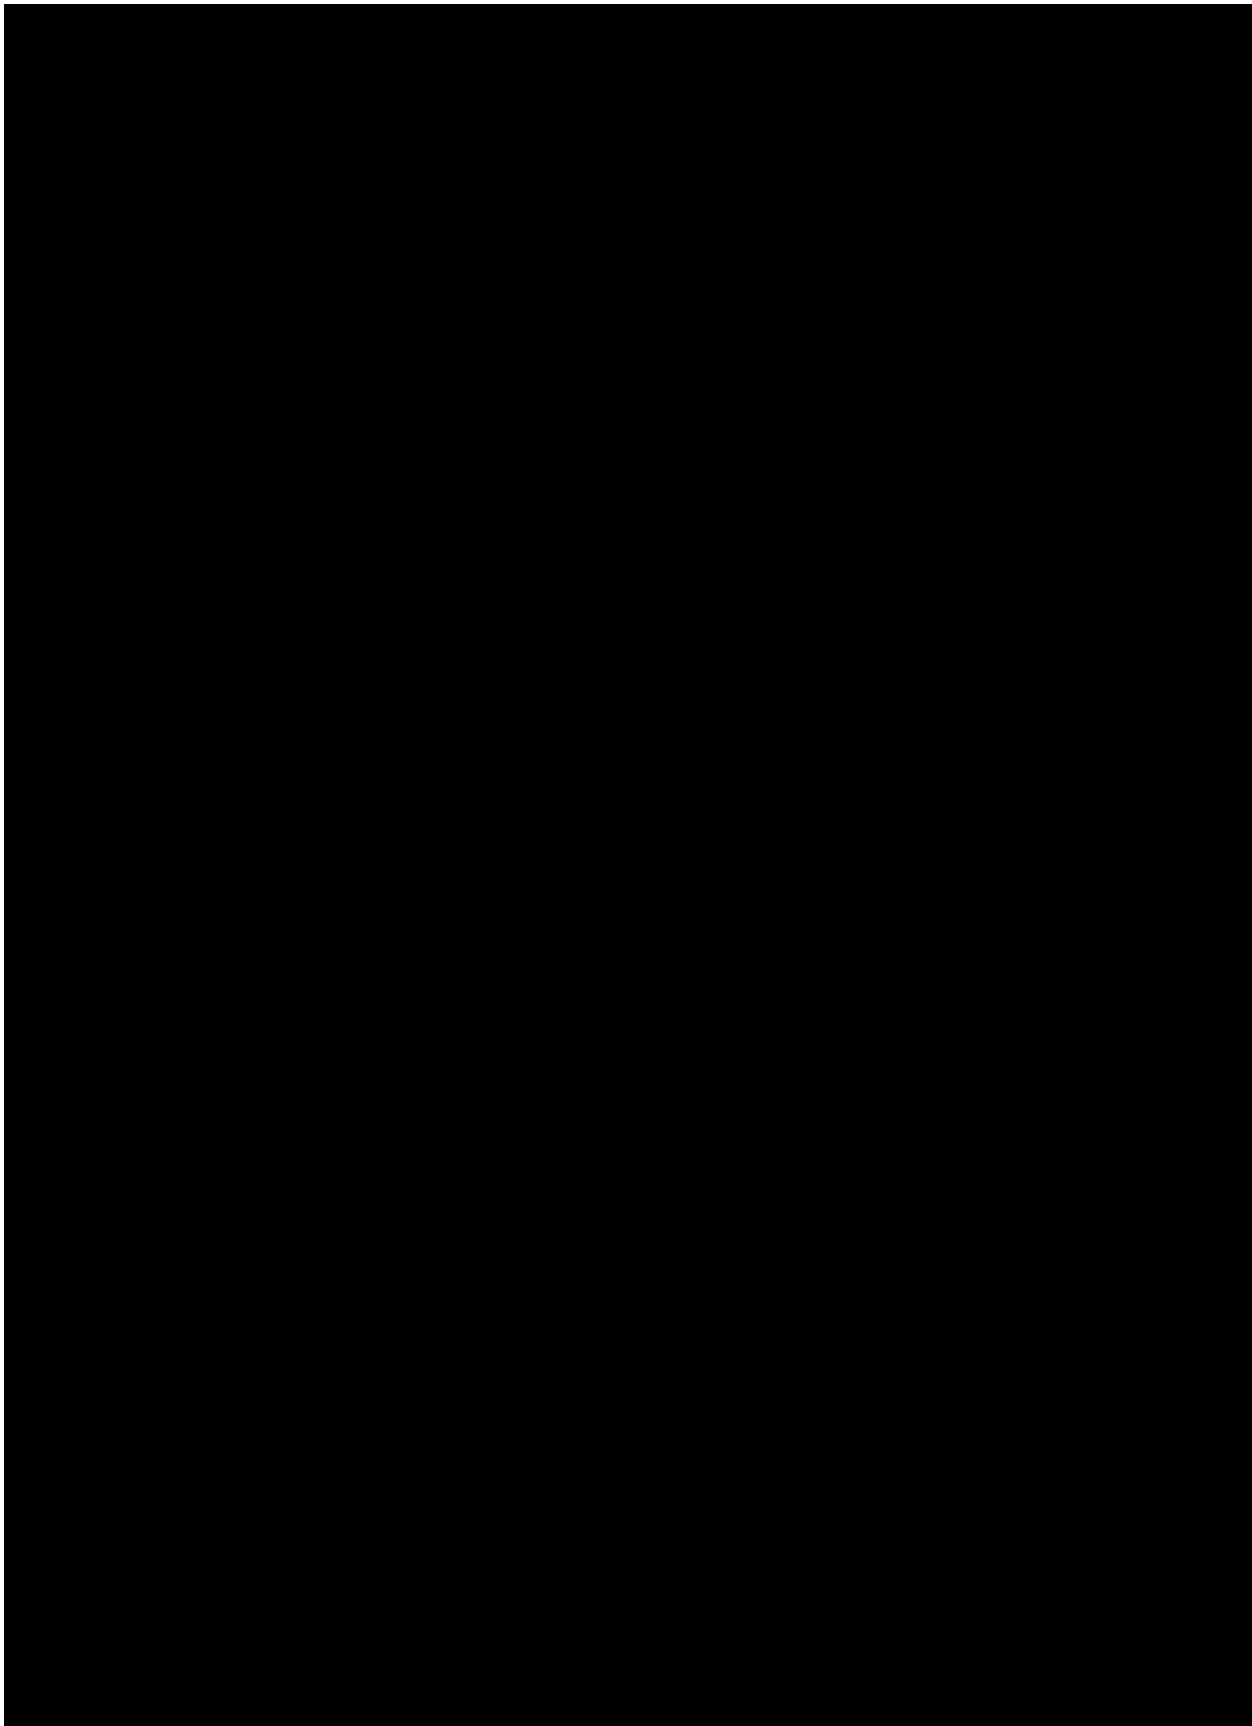

The coordinator clarified that the aim of the discussion is to finalise the document, with the objective to have it adopted at the February plenary.

The discussion revolved around whether the supplementary measures should be included in the tool itself. 

The role of the certification body with regard to the assessment of the third country was also discussed. 

The members of the ITS ESG agreed on the importance of ensuring consistency and the need to check internally with the colleagues in charge of certification as well as with the CEH ESG. The relevance of the outcome of the discussion for the Guidelines on codes of conduct was also mentioned.

The rapporteurs will prepare a clean version of the documents with the points for discussion before Christmas, for written comments by January 14. There won't be a new version on the basis of the comments received, since the discussion focus on the elements identified in the clean version.
