7-8 April 2021

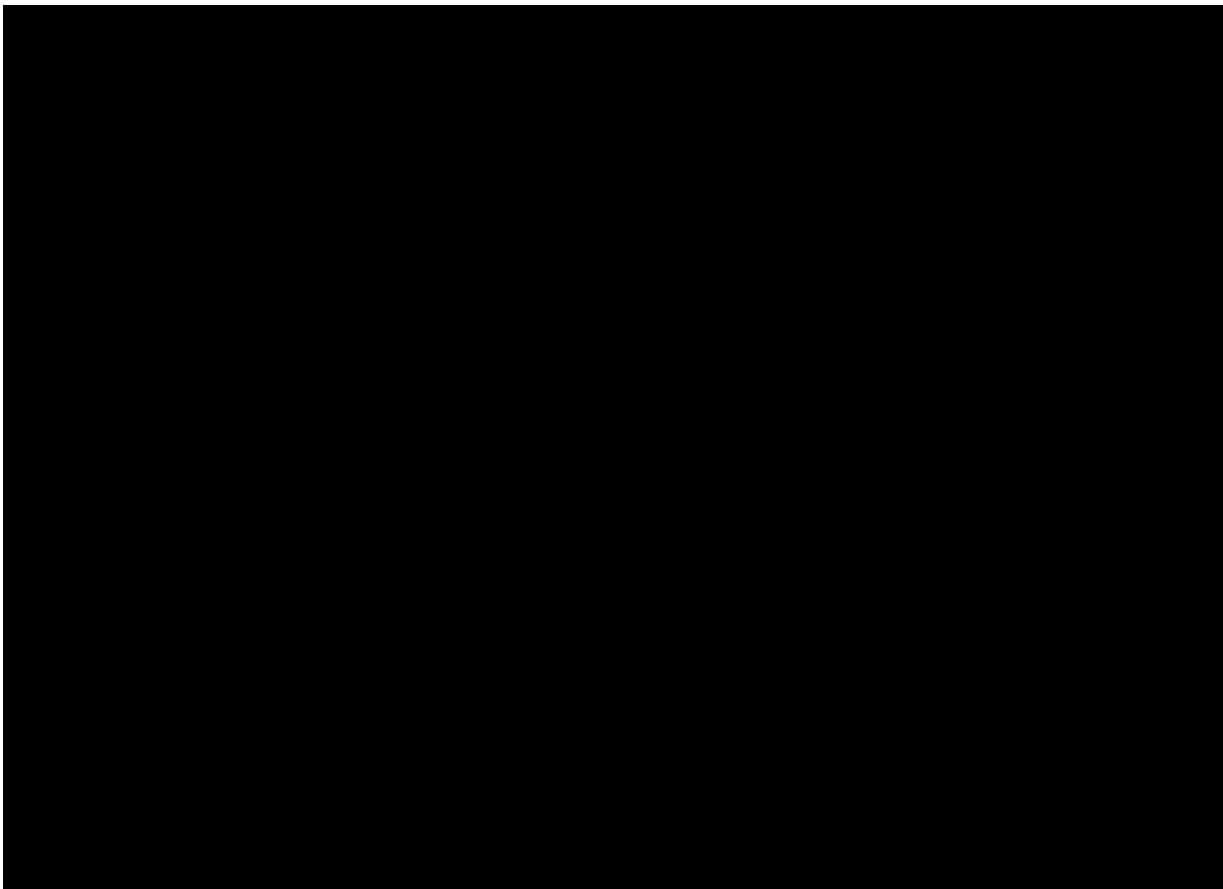

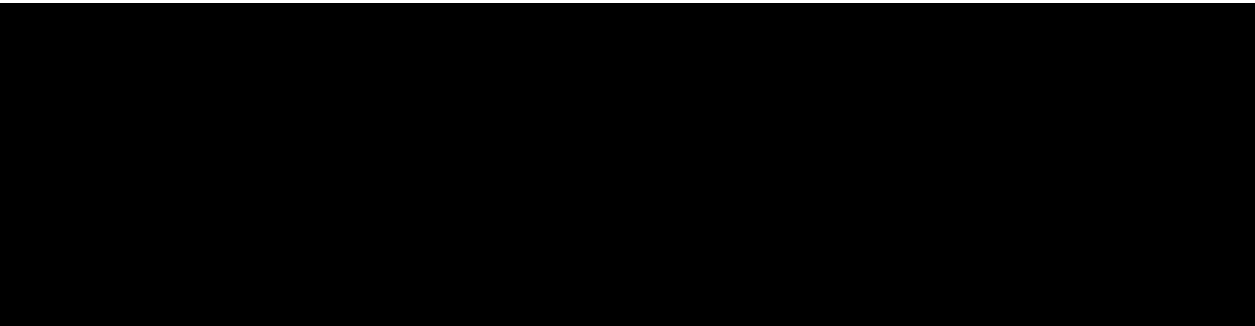

3. Codes of conduct as a tool for transfers

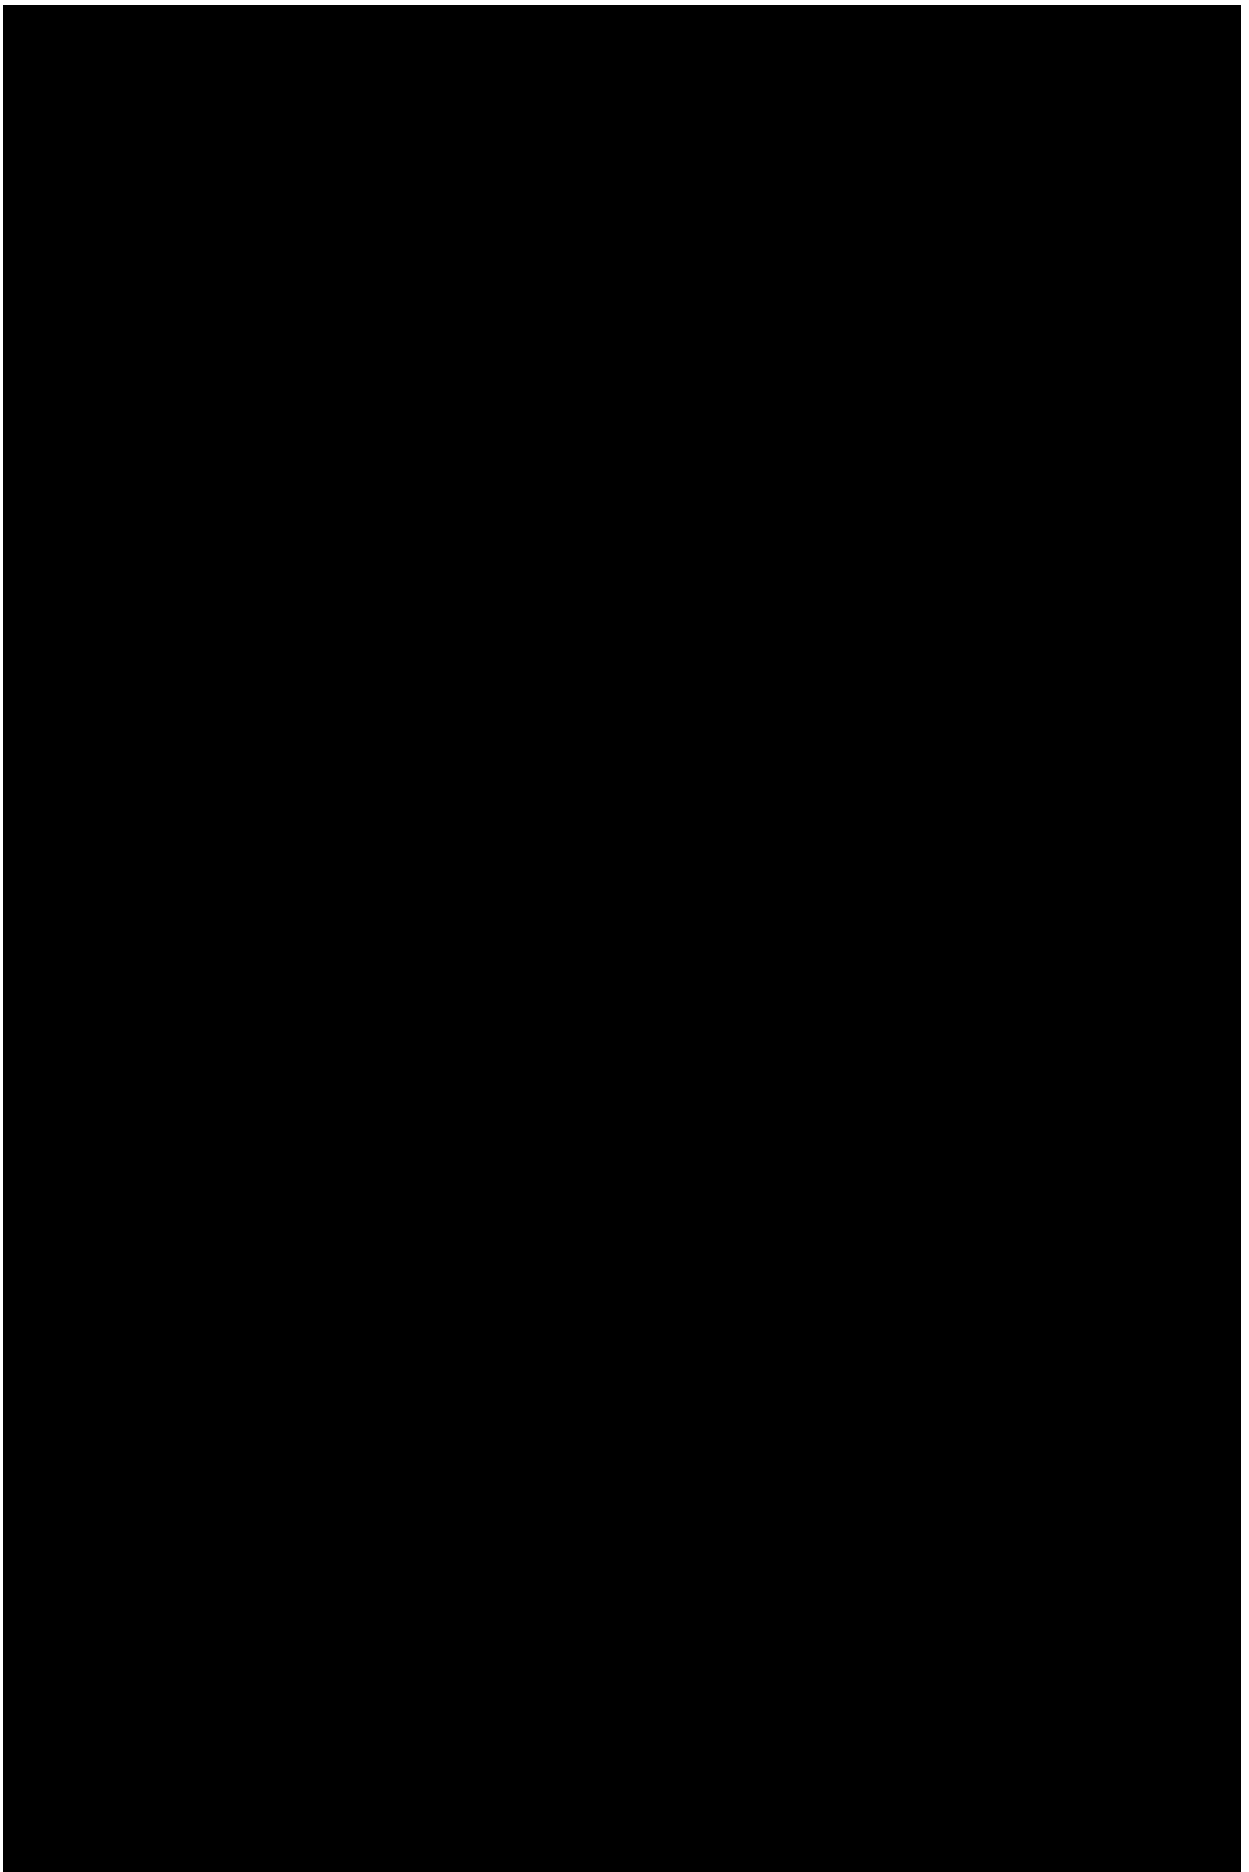

The lead rapporteur informed the ITS ESG members that a written state of play of the draft guidelines will be presented to the 13 April 2021 Plenary meeting. The ITS ESG members favoured having a general discussion on the comments submitted by the delegates.

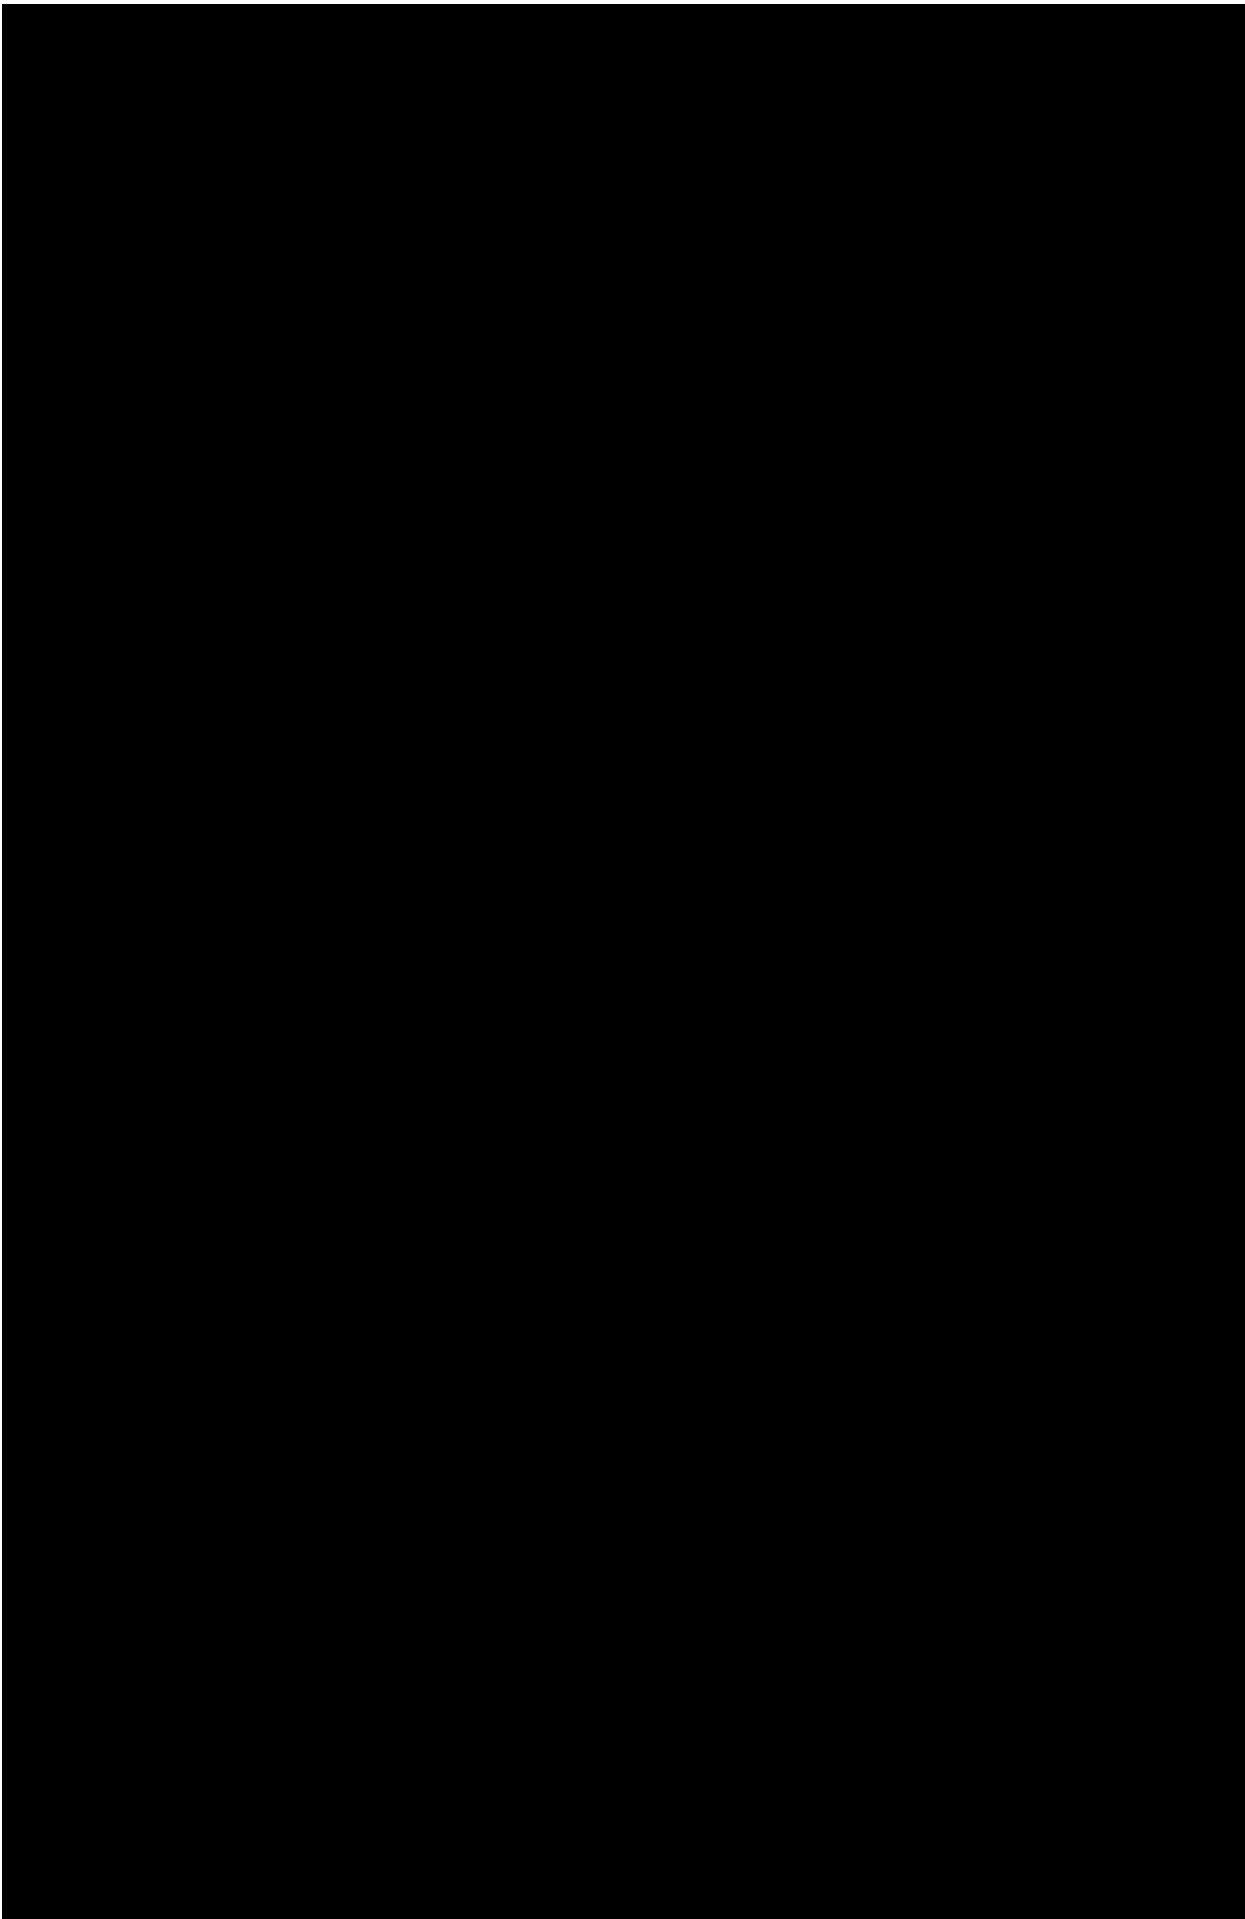

Firstly, the discussions focused on example one, first sentence, and its interaction with use-case 6 of Recommendations 01/2020 on supplementary measures. The members chose to limit this example to the storage of data and the location of the cloud service provider in a third country in general. Suggestions for rewording were also submitted.

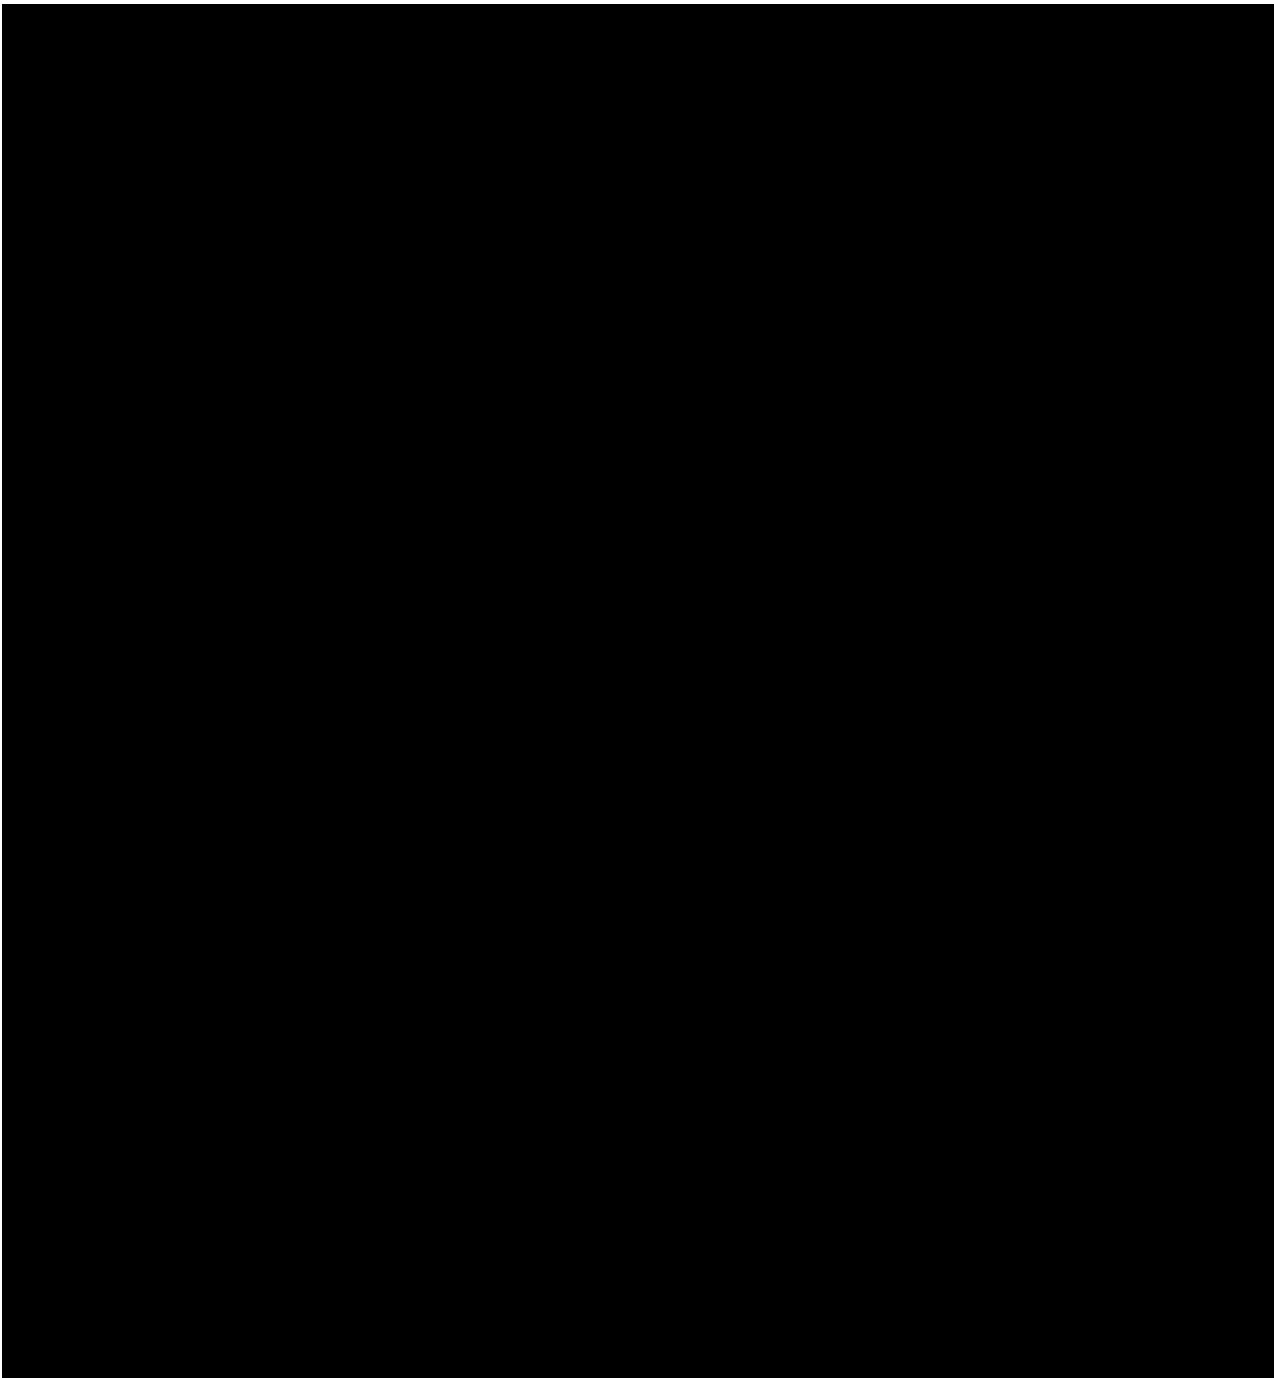

The ITS ESG members were invited to share their comments by 14 April 2021.
