

UNIQUE FLOWERS...JUST LIKE US

WHAT WE KNOW ABOUT CHILDREN AND YOUNG PEOPLE, WHO LIVE OUT OF THEIR HOMES, WITH NO PARENTS?

• What are they live with as
contacts, feelings, chances to be
happy around us?

1100 PEOPLE ARE ASKED ABOUT IT:

- ◎ We believe that children shall live in a family or a family type home; all children have equal rights to study, work, be happy and with a family; teachers believe all children have to be together at school, but they do not feel they are ready to support and teach all different students; they need special preparation to be good teachers for every child;
- ◎ People know about children with disabilities who live out of their families and homes, only from TV, and do not understand very well all problems of these children;

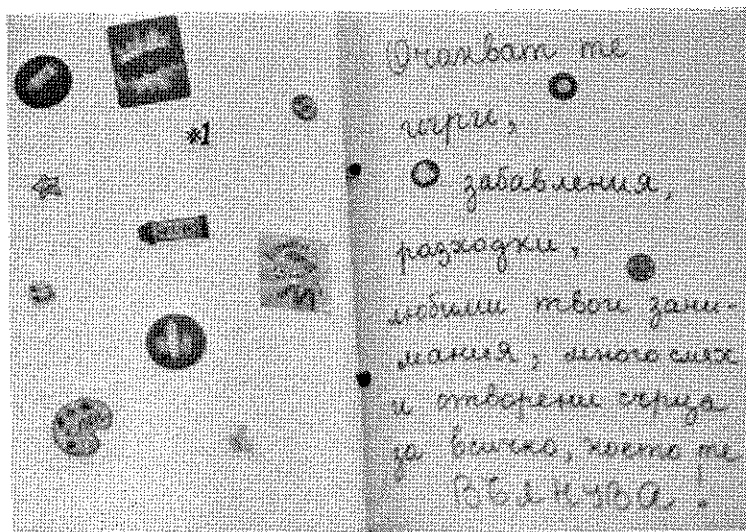

CHANGES IN MY COUNTRY

- ◉ In Bulgaria we have political documents with promises how to change lives of children who live out of their family homes; how to support parents not to leave their children far away from home; how to close these big, cold institutions, called homes for a lot of children;
- ◉ National Action Plan
- ◉ 3 national projects
- ◉ We believe in 2025 there are no homes like these anymore! A lot of people are involved!

HOW MANY CHILDREN AND YOUNG PEOPLE ?

- ◉ We try to change the lives of 7587 children and young people from 137 institutions.
- ◉ *25 institutions for children with intellectual disability*
- ◉ **820 children / age 4-18/**
- ◉ *35 small group homes*
- ◉ **429 young people age 18 and up;**
- ◉ **1249 children and young people with ID**

WHAT PEOPLE THINK ABOUT OUR WORK NOW:

© *I think that it was a really good first meeting, everyone was engaged for some of time and most for the whole time. I think that it will be really neat to watch new friendships and connections be made within this group. Thank you again for inviting me to be a part of the event on Friday evening.*

- [9.4.2012 г. 19:11:46] мила анета възхищавам се от вдъхновението и ентузиазма с който работиш с децата и печелиш сърцата им. Това е едно от нещата които ми направиха дълбоко впечатление
- Благодарение на това Венци можа да се впише в групата на останалите още на втората седмица като се има предвид че тя трудно допуска непознати хора до себе си. Много е добра и идеята децата да сътворят заедно-това беше за дъщеря ми особено полезно за усъвършенстване на фината моторика по-точно работата с дребни и фини елементи
- Още пазим чинийката ище я използваме за Великденската трапеза. Чакаме с нетърпение следващата ни среща. Веси

- ◉ - they should be very good in their work, we should be in best health; doctors have to think, and be careful and do their best because of us; they save our lives, and have to feel happy when they treat us.
