**Subject:** Re: Invitation to deliver a keynote speech | GRIDTech | 28 June, 09:30-17:00 | The Arsenal, Brussels

Thank you, [REDACTED] yes I just saw the invitation. Very nice agenda. We will let you know Commissioner's reply.

Kind regards,

Tatiana

**Subject:** Invitation to deliver a keynote speech | GRIDTech | 28 June, 09:30-17:00 | The Arsenal, Brussels

Dear Tatiana,

Hope all is good with you.

I wanted to let you know about our intention to once again **invite Ms Simson to deliver a keynote speech at a newly established format event in Brussels, that will take place on the 28<sup>th</sup> of June.** The event is co-organized by GIE and Eurogas, with the technical support of ENTSO-G, and will tackle the LNG, Storage, Pipeline, and DSOs perspective (covering the grid perspectives to the maximum possible level), sector integration, sustainable transition, methane emissions, etc.

You can find attached the current version of the agenda. All the information about the event is below, and I am happy to answer any questions you might have.

As this is a very broadly represented industry grid event, we would very much appreciate it if the Commissioner can join us for the opening address.

Please be kindly informed that this invite will be issued to the Commissioner later today.

With best regards,

[REDACTED]

Dear Commissioner Simson,

I take the opportunity to invite you to deliver a keynote address at the first edition of **GRIDTech 2022**, a joint conference organised by **Eurogas** and **GIE**, with the technical support of **ENTSOG**. The event will take place at **the Arsenal on the 28<sup>th</sup> of June, from 09:30 to 17:00**.

Your speech will take place on the occasion of the opening session, starting at **09:30**.

The conference will shed light on the innovation and technological development in the EU gas infrastructure. Bringing together an eclectic selection of experts from various horizons, it will be the occasion to discuss the challenges faced by the energy sector to deliver climate-neutrality by 2050 while ensuring the security of supply of the union.

We invite you to find attached a draft programme of the event. The conference will offer a broad audience four panels focusing on

- Fostering a secure and sustainable transmission,
- Presenting the role of renewable and low carbon molecules,
- Enhancing sector integration,
- Reducing methane emissions,

The discussions will welcome representatives from the EU institutions, academia, industry, and energy sector at large.

We would be delighted if you would present to the international assembly the European Commission's guidance to deliver the climate objectives of the EU, as well as its vision regarding the gas and energy sector in general, in the light of REPowerEU.

The keynote would be roughly **10 minutes** and would not involve Q&A unless specifically asked for by yourself.

In anticipation of a favourable outcome, please accept, Commissioner Simson, the assurances of my highest consideration.

Yours sincerely,
