

# Transatlantic dialogue on agricultural innovation for a sustainable food system

**Online  
event**

**12th October 2021  
16:00 - 17:15 CET  
10:00 - 11:15 ET**

**The EU and the U.S. have entered a new era of positive Transatlantic engagement, with a focus on enhancing cooperation to achieve common sustainability goals.**

Both the EU and the U.S. have set themselves an ambitious objective to become carbon-neutral by 2050 and are stepping up efforts across all sectors of the economy to ensure these targets are met.

Scientific research and innovation in agriculture will enable the transition towards a sustainable food system that can contribute to the achievement of the EU and the U.S. climate goals.

The objective of this online event is to promote a dialogue between EU and U.S. stakeholders on agricultural policy, focusing on how enhanced cooperation in scientific research and agricultural innovation can accelerate the transition towards a sustainable food system on both sides of the Atlantic.

**Mr Maciej Golubiewski**  
Head of Cabinet  
of EU Agriculture  
Commissioner Janusz  
Wojchietchowski
