

Message 104

Communication from the Commission - TRIS/(2017) 00517
Directive (EU) 2015/1535
Translation of the message 103
Notification: 2016/0615/B

Forwarding of the observations of a Member State (Hungary) (article 5, paragraph 2, of Directive (EU) 2015/1535).
These observations do not have the effect of extending the standstill period.

4. 2016/0615/B - C00A

5. article 5, paragraph 2, of Directive (EU) 2015/1535

6. The Belgian draft decree partially adopts the amendment of Regulation (EC) No 1925/2006 on the addition of substances to foods and Directive 2002/46/EC on food supplements, and partially formulates new national rules whilst updating old ones with new scientific results based on national nutritional surveys. This means that the draft is fully eligible from a professional point of view. Given that, however, for lack of EU-level regulation, it sets maximum limits of vitamins and minerals, and prescribes that warning texts must be published above certain amounts whilst prohibiting the use of two sources of vitamins (nicotinic acid, inositol hexanicotinate) allowed by Directive 2002/46/EC, it may pose an obstacle to the free movement of (Hungarian) goods.
