[REDACTED]

Thanks for getting back to me.

Would a 9am meeting - 3 attendees from our side - be feasible? In addition to tobacco, we'd like the opportunity to discuss the recently introduced Human Transplantation (Wales) Bill - which will introduce a soft opt-out system for consent to deceased organ and tissue donation in Wales.

Can you please advise if this would be possible?

Best

Subject RE: Meeting Request: British Medical Association

Hi Paul,

Dominik's agenda is not very busy on 8 May for the moment. If I understood correctly from your email exchange there will be a face to face meeting;

Would 10 a.m. be ok for you to meet? How many people will be present?

Regards

[REDACTED]

Paul, Thanks for the info - the topics are relevant (even if not all for the TPD revision). Could you please also explain what the specific angle of Wales is.
Regards Dominik

Dominik

I appreciate that this is a busy time for you and that you are doubtlessly receiving a lot of similar requests so thank you for getting back to me.

There are several aspects of the directive which we would like to discuss - for example but not exclusively, national smoke-free legislation as a matter of voluntary compliance, the regulation of ingredients (Article 6) and the need for further measures to de-glamourise/de-normalise tobacco usage to young people.

We are particularly interested in the proposal that nicotine containing products (NCP) should be regulated under the amended Directive and the role of e cigarettes - which we believe require additional extensive research - in reducing the overall use of tobacco and helping smokers to quit their habit.

Should you be unavailable to meet, it would be most appreciated if you could forward this request onto relevant colleagues. We will, of course, be able to provide a further steer in the topics that we would wish to discuss in advance of any scheduled meeting.

Best
