## Telecom, French telecom company

Dear Mr Jørgensen,

The [Bouygues Group](#), founded in 1952, is composed among others of the telecom company [Bouygues Telecom](#) (GSMA and ECTA member) and the media group [TF1](#) (ACT member).

[REDACTED] Bouygues Telecom, would be glad to exchange with you on several topics related to the sustainability of data traffic. As you know, **video traffic doubles every 2 years**, as illustrated in the recent [study](#) commissioned by the European Telecommunications Network Operators' Association (ETNO). This raises a serious environmental and economic issue due to, among others, the necessity for telecommunications operators to deploy more and more infrastructure to allow this data traffic growth in the EU.

We would be very interested to discuss with you the two upcoming files: the Declaration on digital rights and principles and the 2030 policy programme "Path to the Digital Decade".

Moreover, in the light of the ETNO study, of the upcoming Declaration and of the 2030 policy programme, we would like to discuss with you the different regulatory options available to address this issue and the need for platforms to contribute to the financing of telecom networks.

Would you be interested in a meeting, could you please share with us your availabilities?

Thank you in advance for considering our request.

Best regards,

[REDACTED]
