Subject: Follow-up on online meeting with the Presidents of the German Public Banks of 10 March

Dear John,

Thank you very much for the very constructive and interesting online meeting we had on 10 March. Especially in these extraordinary times with their great challenges for the EU institutions and the financial sector, our Presidents valued the open and frank exchange with you.

As time did not allow for us to discuss our most important regulatory topics, we are sending you, as agreed, a concise overview of our priorities on sustainable finance and the banking package (together with detailed and more technical concerns). To ensure that our banks can continue to take responsibility for financing the economy and society in times of

transformation and geopolitical uncertainty, we would be very grateful if DG FISMA could take them into account in the Commission's consultations or in the legislative process.

If you have any questions, please do not hesitate to contact us.

Yours sincerely,

Association of German Public Banks, VÖB
