Subject: Request for a meeting with EVP Frans Timmermans and Diederik Samsom- Sasol

Dear Executive Vice President Timmermans, Dear Mr Samsom,

I hope this email finds you well.

I am contacting you on behalf of [Sasol](#) to kindly request **an in-person meeting in Brussels with** [REDACTED], [REDACTED], and [REDACTED].

They are available as follows:

- on Monday 19 September
- on Tuesday 20 September (after 14.00)
- on Wednesday 21 September (before 13.00).

Sasol is a global chemicals and energy company that integrates sophisticated technologies and processes into world-scale operating facilities. As South Africa's largest fuel manufacturer, Sasol strives to safely and sustainably source, produce and market a range of high-quality products globally, including the production of green hydrogen. Currently, Sasol is studying the possibility of obtaining as much as 3,000 megawatts of renewable power to make 100,000 tons of green hydrogen for export.

As the EU strives to replace fossil fuels with more sustainable energies such as hydrogen, we believe that Sasol and South Africa itself could have an important long-term role to play to 2050 and beyond.

[REDACTED] and [REDACTED] would then appreciate the opportunity to **present Sasol's most recent developments in the production and uptake of hydrogen and the very important role that Sasol plays in South Africa and in Europe.** In this context, we would like to discuss your vision for hydrogen and engage in a constructive exchange.

Thank you very much in advance for considering our request, we remain at your disposal for any questions.

Kind regards,

[REDACTED]
