Dear Tatiana,

I hope this email finds you well.

I just wanted to follow up on this, and to let you know that the Sasol team now would be able to do two options on Monday the 19th of September.

- **11:30-13:00pm**
- **16:30-17:30pm** (this option is not ideal for the Sasol team as they already have a meeting scheduled, but if the above time doesn't work for you, we could try to move it).

Would any of these times work for you?

The 20th in the afternoon (from 15:00pm) would also still work for the Sasol team.

I look forward to hearing from you soon.

Kindest regards,

Dear Tatiana,

Thank you so much for coming back to us so fast—much appreciated!

The Sasol team would still very much would like to meet with you, but the 19th of September is an extremely busy day for the team (unfortunately, we have already secured some meetings). So, would it be possible to do the meeting either 8:30am–9:30am or from 6pm?

The 20th in the afternoon is a much better day for them though, and they could also do from 11:30–12:30 on the 21st of September.

Thank you so much for your understanding, and I look forward to hearing from you soon.

Kindest regards,

Dear [REDACTED],

Sorry for not having come back to you. We are a bit overloaded at the moment and some colleagues have just come back from holidays.

Monday 19 would be our preference - as from 10h30, if possible. Would 10h30 be okay for you?

Best regards,

Tatiana

Dear Ms Uriarte,

I hope this email finds you well.

I am just following up on my previous email regarding a request for a meeting with Sasol.

Would you be able to let us know if any of these times would work for you?

I look forward to hearing from you soon.

Subject: Request for a meeting with Sasol

Dear Ms Uriarte,

I hope this email finds you well.

I am contacting you on behalf of Sasol to kindly request an in-person meeting in Brussels with their [REDACTED], [REDACTED] their [REDACTED] and their [REDACTED]. They are available as follows:

- on Monday 19 September
- on Tuesday 20 September (after 14.00)
- on Wednesday 21 September (before 13.00).

Sasol is a global chemicals and energy company that integrates sophisticated technologies and processes into world-scale operating facilities. As South Africa's largest fuel manufacturer, Sasol strives to safely and sustainably source, produce and market a range of high-quality products globally, including the production of green hydrogen. Currently, Sasol is studying the possibility of obtaining as much as 3.000 megawatts of renewable power to make 100.000 tons of green hydrogen for export.

As the EU strives to replace fossil fuels with more sustainable energies such as hydrogen, we believe that Sasol and South Africa itself could have an important long-term role to play to 2050 and beyond.

[REDACTED] would then appreciate the opportunity to

present Sasol's most recent developments in the production and uptake of hydrogen and the very important role that Sasol plays in South Africa and in Europe. In this context, we would like to discuss your vision for hydrogen and engage in a constructive exchange.

Thank you very much in advance for considering our request, we remain at your disposal for any questions.

Kind regards,
