FYI: [Aut 4.16] from CLEPA called me this morning asking about a brief SoP on 1str BIT nego round and how they could help. I explained briefly what happened and said that we will welcome in the future their input on the nego, in particular on problems they experience when investing in China (with clear references to laws and administrative practice at stake) and their priorities on how to ease the restrictions.

Dear Xavier,

We've met a couple of times and I was there when you presented at the last MAAC subgroup meeting on automotive.

I would like to touch base with you on China. I tried calling you, but you were out.

I'd like to know more about the state of negotiations around the bilateral investment accord with China, []

I'd appreciate you calling me when you have a moment.

Thank you.

Kind regards,

[Aut. 4.16]
