Subject: EU-China Investment Agreement updates and Chinese President Xi Jinping's visit to the EU Institutions

Dear Mr.

I am from the Brussels-based consulting firm Fleishman-Hillard. I tried to call this morning but I found you at a very busy time and thought to drop you a quick email.

I would appreciate if you could provide me with the most recent updates on the **EU-China Investment Agreement's** negotiations on the back of Chinese President Xi Jinping's visit to the EU Institutions.

What kind of impact will have the fact that the EU now backs China joining plurilateral talks on Trade in Services Agreement (TiSA) on the **bilateral EU-China Investment Agreement?**

Are we expecting the recent visit to produce any substantial movement on the bilateral discussions?

Thanks a lot in advance.

Best regards,

P +
