Dear Mr Spadafora,

As agreed during our telephone conversation of this morning, please find attached the complainant's observations on OLAF's reply to the draft recommendation in the above case. In particular, the complainant indicated that OLAF's letter stating the reasons to close the investigation only referred to the issue of fraud and did not address the other allegations initially put forward by the complainant.

We would be grateful if you could clarify to us this specific point.

Yours sincerely,

**European Ombudsman**
