Subject: MED TECH meeting June 23
Importance: High

Dear all,

I am now in a position to confirm **June 23 as the date for the MED TECH meeting** to prepare the MED POL confirmed for July 7. Please let us know the participants from your respective side at your earliest possible convenience.

We are currently working on the precise timing and agenda for the MED TECH meeting. I presume we should as usual have a discussion about the current economic situation, the outlook and the appropriate policy options; in a second round of debate, participants may wish to react to the June package of country-specific recommendations by the Commission. However, we may not need to have a full-day meeting this time.

Given that the meeting has been convened at relatively short notice, we may also consider to have another MED TECH meeting later in the autumn.

Kind regards,

Karl

Karl Pichelmann
