

information in writing. The documents enclosed concerns the following issues:

- a) EU-Vietnam FTA negotiations
  - Background information concerning the need for single transformation to be permitted in the agreement.
- b) TTIP
  - Concrete example of an important barrier to e-commerce exports to the US.
- c) Market Access issues
  - Turkish trade barriers

I am of course available to provide further information concerning the above mentioned cases should you or your colleagues need it.

In addition, we would of course be more than happy to arrange a discussion on trade policy concerns with some of our SME members and you or your colleagues. The only limitation is however that almost all of our SME members are based in Sweden. We will get back to you with an invitation for such a meeting as soon as we have worked out the practical details.

Best regards,

Ant. G. 1 (5)

Swedish Trade Federation
