NOTE TO THE FILE

Subject: Bilateral meeting on 11 December 2014 with Honda to discuss light vehicle CO₂ legislation

On 11 December 2014 I met with Honda in Brussels to discuss CO₂ legislation for cars.

We discussed issues relating to the implementation of the current CO₂ legislation and Honda's strategy for compliance with the 2021 target, to understand how the manufacturer's strategy had needed to be adapted for compliance and the cost of compliance.

We also discussed Honda's views on the form and ambition for a future legislative proposal for car and light commercial vehicle CO₂ emissions. Their views on the appropriate level of ambition, the technologies available, the likely costs, views on other elements which could be included in the legislation.

Honda was encouraged to provide input on the various pieces of analytical work which we envisaged to provide the evidence base for post 2020 legislation.
