NOTE TO THE FILE

Subject: Bilateral meeting on 12 February 2015 with Toyota to discuss light vehicle CO₂ legislation

On 12 February 2015 [REDACTED] and I visited Toyota's offices at Zaventem to discuss the current CO₂ legislation for cars and light commercial vehicles.

We discussed issues relating to the implementation of the current CO₂ legislation and Toyota's strategy for compliance with the 2020 and 2021 targets, to understand how the manufacturer's strategy had needed to be adapted for compliance and the cost of compliance.

We also discussed Toyota's views on the form and ambition for a future legislative proposal for car and light commercial vehicle CO₂ emissions. Their views on the appropriate level of ambition, the technologies available, the likely costs, views on other elements which could be included in the legislation.

Toyota was encouraged to provide input on the various pieces of analytical work which we envisaged to provide the evidence base for post 2020 legislation.
