Subject: meeting with UNIFE representatives (European association railway & train manufacturers)
Importance: High
Sensitivity: Confidential

I met today [ART. 4.1b] and [ART. 4.1b] for a very short meeting. They presented their members' interest in public procurement (local content requirements) and on standardisation. They are planning a visit to the US in November with the European Railway Agency (based in Valenciennes) to its US counterpart (Federal Railway Agency). Theirs members are much interested on regulatory coherence in standard setting. They are working on a position paper setting out these positions [NOT RELEVANT]. They are in close contact with DG Move.
