**Subject:** Meeting EUROFER on ETS proposal

Dear [REDACTED],

I hope this email finds you well.

As you might know, I have joined very recently the EUROFER team to work on climate and energy files, so we will continue staying in close contact.

Following the publication of the Commission yesterday, our members have requested to arrange a meeting with the European Commission to discuss some details of the proposal.

The objective of the meeting would have some clarification on few details of the proposal just to have a clear understanding of them.

If possible, we would like to arrange such meeting before the summer break, so we would like to ask whether you and/or a colleague of yours would be able to take part next week.

In order to allow a larger participation from our members, we would prefer having it at our offices, but if that is not possible we could also select a delegation depending on the capacity of your rooms.

I hope this is possible and look forward to your feedback.

Kind regards,

Adolfo
