Subject: MEETING ON CLONING TOMORROW - important
Importance: High

Dear colleagues,

This is to confirm as suggested in the "calendar invitation" for tomorrow's meeting that I will prepare some slides on the "*intervention logic*" and "*possible options*" and send them either tonight or tomorrow. The purpose of the meeting will be to discuss these two issues as well as the next steps.

I understand from my secretary there will be an audio link with JRC Sevilla & EFSA Parma, which is very good ; thanks for their availability.

Looking forward to a fruitful discussion,

██████████

PS my colleagues are in parallel assessing the very recent draft final report of GHK ; in case any of you would like to have the copy of the report please ask ██████████ directly ; your written comments by 4. December at the latest would be most welcome. The deadline is short as payment as to be made before 20. 12 on the based on a fully corrected (by GHK) and agreed (by us) final study. The comments should therefore concentrate on key /important issues. Many thanks in advance
