- Code of good conduct
- Public access to documents
- Personal data protection
- Financial Regulation

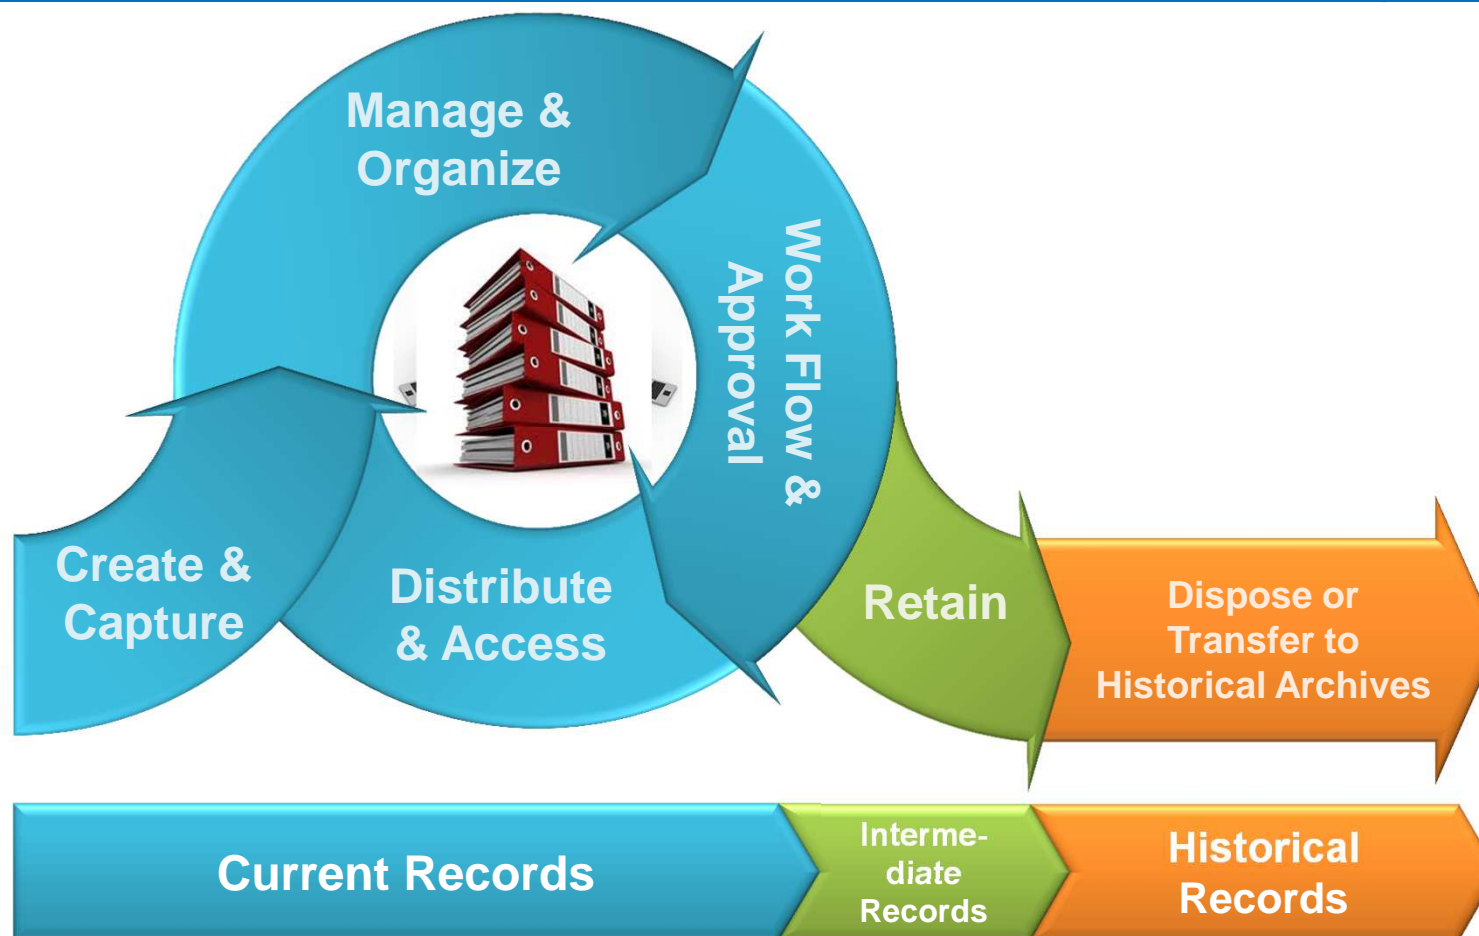

Legal basis of document management in the EC

Internal Control Standard Nr 11

[...] every document that fulfils the conditions laid down in the implementing rules needs to be **registered**, **filed** in at least one official file (each file being attached to a heading of the Filing Plan), and **preserved** during the period established by the document management rules. To do so, the DG uses systems which respect the above rules, mainly HERMES-ARES-NOMCOM.
