

Invitations to Working Groups and Task Forces

ARES Registration Procedure

Unit creates new
ARES document

Import (with Annexes) the invitation letter without date and without the mention "e-Signed"

The mention "e-Signed" must be added only once the Director has completed the SIGN task in ARES!

Creation of an e-Signatory with ve_estat.dir in the workflow just before the SIGN task (*final check before signature*)

After signature by the Director, check out the invitation letter, add "e-Signed" and check it in

Register and Send

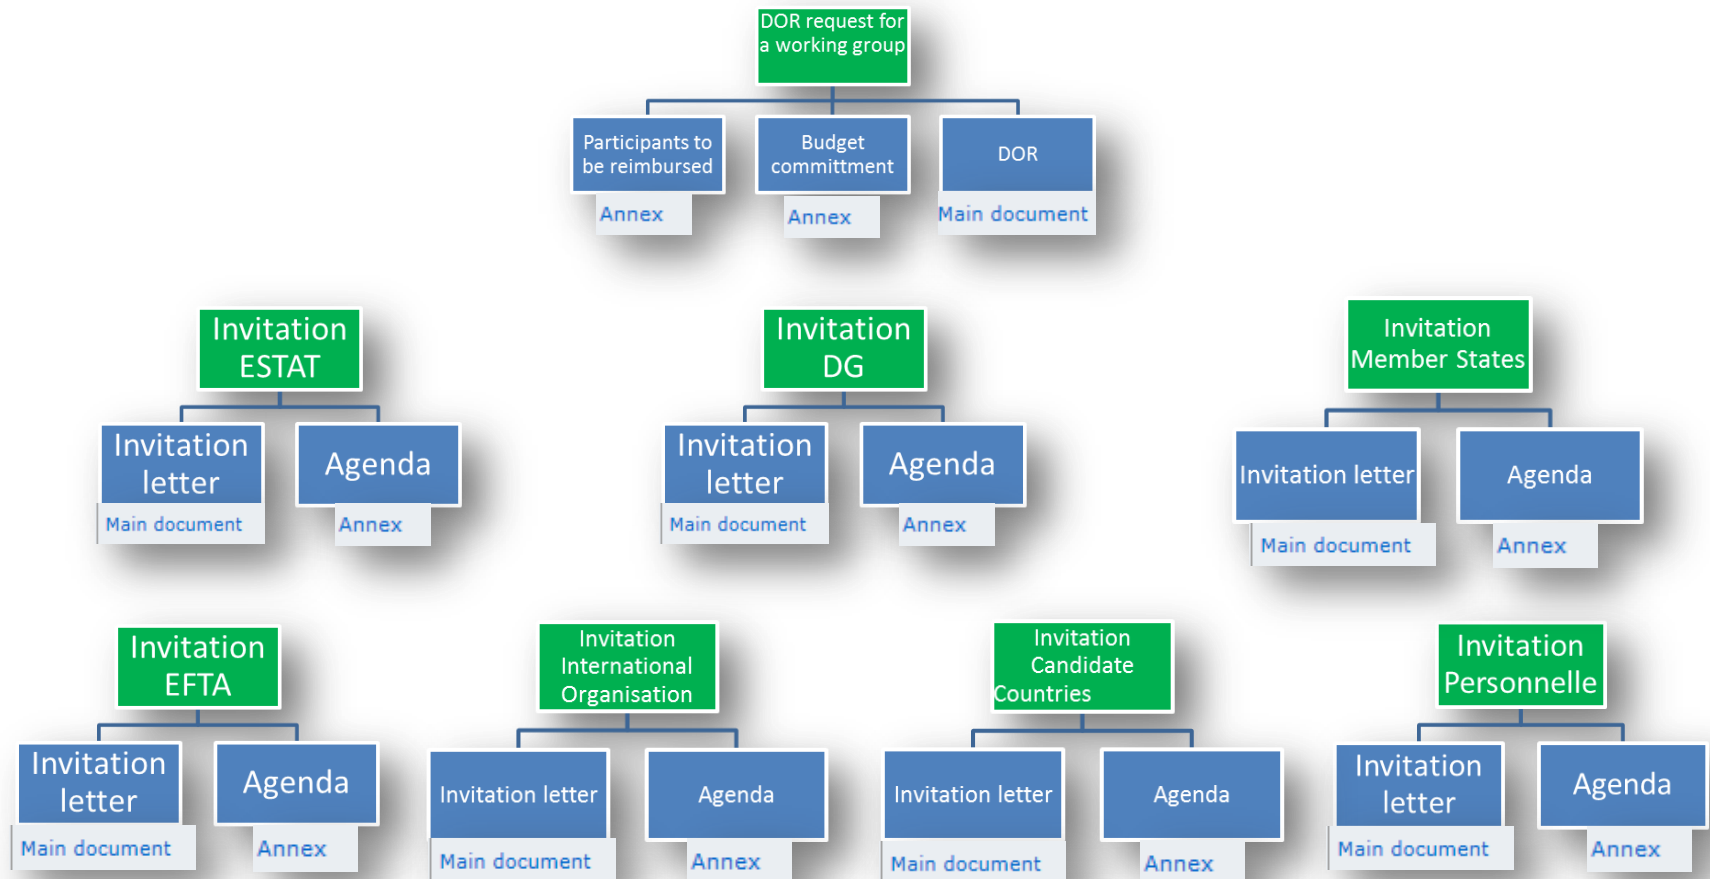

The Unit registers the
ARES document

Ref. Ares(2014)198584

The Unit files the ARES document and sends it after conversion into PDF with the ARES stamp

*It is recommended to include the
Director in the recipients. This will
avoid:*

- extra work to upload the DOR in
the invitation document for info*
- double registration of the DOR in
two different ARES records*

Reimbursement form partially filled

It is recommended that invitations to Member States have in Annex the reimbursement form, partially filled in (i.e. event name, date, etc.).

This way it will be possible to attach the Ares-stamped form to the e-mail message of invitation, making it easier to reconcile each incoming form with the respective event.

It is acceptable to include a pre-defined recipient list (e.g. 'working group xyz', 'task force xyz') in the 'Recipients'\Organisation/Service' field.

Warning: the External Transmission functionality accepts one recipient address only, so mailing lists do not work!

Tip: Do not fill in the 'Document date' field, the system will remind you to do it just before registration.

This will avoid any inconsistencies between date of document and registration date.

General data

Document date:  * Sent date:  Encoding Date: 31/01/2014

Do not type the date in the letter,
Ares will do it for you.

This will avoid any inconsistencies
within the document, and
confusion for the recipient!

Do not type the ARES save
number in the letter, ARES
will 'stamp' the registration
number instead.

This will avoid any
inconsistencies within the
document.
