Dear [REDACTED],

I have understood from [REDACTED] that he has already "warned" you about what is our planning for RAC 39 B regarding glyphosate and what we would need for that.

Dear [REDACTED] attached is a revised presentation to be given by [REDACTED] at RAC 39. Essentially some typos have been corrected , tables formatted and some slides mover around to make the story flow better. The presentation is password protected but can be read as read only and hope this is ok. If you have any further information on the structure of the meeting I will gladly pass this on. Likewise you will get a request from Cop-Cogeca the European farmers and cooperatives association to attend the glyphosate discussions. I have explained to them this is all about hazard assessment and that only five stakeholders will be presenting and attending, however they are still concerned about not getting an invitation.

Best regards
