**Subject:** AW: Possible meeting on boric acid

Dear :

Thank you for this opportunity, I look forward to hearing from your colleagues. ZVO will compile as much information as possible beforehand and send it to you via email.

As for the public consultation, I admit that unfortunately we had been unaware of the parallel procedures of ECHA and COM and therefore ZVO only participated in the former. We are regularly monitoring the COM's consultation webpage at <http://ec.europa.eu/yourvoice> but must have overlooked it. Perhaps we can remedy this with the discussion in September and the data ZVO is preparing.

Please don't hesitate to contact me for any further questions.

Thank you again and best regards
