14981/07 CODEC 1215 STATIS 141 SAN 203 SOC 446

9823/08 STATIS 70 SAN 103 SOC 308 CODEC 640

"The Netherlands agrees to the Regulation.

The Netherlands welcomes the introduction of a system for the development of statistics on health and safety at European level. The Netherlands government will do its best to obtain and deliver the requested data.

At the same time, reducing burdens as a consequence of Community statistics is one of the objectives of the Community action plan for reducing administrative burdens in the EU, and the Netherlands supports the Commission in this aim.

The risk is that when the details of the Regulation are worked out, not all the requested data will appear to be available, owing to the social security system in the Netherlands. The Netherlands government asks the Commission to take account of this situation when working out the details of the Regulation and to ensure that the burdens involved in obtaining data are not unreasonable.

The Commission is also urged not to allow the administrative costs to rise when it adopts measures for implementing this Regulation. In order that this can be assessed, the implementing measures should have a proper basis in line with the EU Standard Cost Model."
