"Following the declaration made by the European Community in accordance with Article II(2) of Protocol 1 to the Lugano Convention, the Commission recalls that it did not propose such a declaration. This declaration has the effect of breaching the parallelism between the Lugano Convention and the parallel Community instrument Regulation (EC) No 44/2001 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters, while the principal objective of the new Lugano Convention was to reinstall such parallelism. As a result, for the Commission this declaration is without prejudice to the ongoing revision of the rules on third party proceedings/notices in the context of Regulation (EC) No 44/2001 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters."

" We can accept the Presidency proposal concerning Directive 2002/30 of the European Parliament and of the Council of 26 March 2002 (on the establishment of rules and procedures with regard to the introduction of noise-related operating restrictions at Community airports) as part of an overall compromise solution. It seems to be a special case which is hardly comparable to other legal acts.

However, we would like to emphasise that the amendment of an annex of a basic act is not ipso jure a measure of general scope in the sense of Article 2(2) of Council Decision 1999/468/EC, as amended by Decision 2006/512/EC, and is therefore not necessarily to be adopted in accordance with the regulatory procedure with scrutiny."
