Subject: RE: (Pack2Go Europe): Tackling waste and environmental challenges head on

Dera

I apologise for replying late, but I thought I had already replied and found the draft mail unsent.

Anyway, I'm afraid I have to decline the invitation as I have already other engagements on the 12th of November.

I would suggest to discuss the Circular Economy proposal and EPR after the adoption of the modified proposal, which is foreseen before the end of the year.

With kind regards,

environment

Subject: [Pack2Go Europe]: Tackling waste and environmental challenges head on

Dear

I would like to kindly invite you on behalf of Pack2Go Europe, Europe's convenience food packaging association, to come and speak to us at a conference we are organising in Brussels on 19 November 2015 during our morning session (at 9.00, 9.30 or 10.00 hrs).

We would be delighted if you would present to the European executives that will be present the EU's upcoming ambitious circular economy proposal and what it entails for manufacturers of food and beverage service and convenience packaging.

Pack2Go Europe is at a strategic turning point: it must face the harsh reality it faces and deal with it pro-actively, lest its industry become obsolete. We are particularly interested in how we can contribute to the EU's Extended Producer Responsibility (EPR) efforts.

The preliminary conference programme is attached for your convenience. Should you be unable to attend yourself, we would be most grateful if you could suggest an alternative suitable speaker from your organisation to come and speak to us.

The conference is being held at the Sofitel Europe, place Jourdan 1, 1040 Brussels.

Please do not hesitate to get back to me with any questions.

Thank you for your time and kind regards,

coordinator
