Subject: The revision of the Emission Trading Scheme (ETS) should take into account the Commissions priorities on investment and growth

Dear President Juncker,

I am writing to you on behalf of 15 industrial associations representing 4 million jobs in the EU.

These associations have prepared a letter (here attached) in which they express their serious concerns about the current discussions to revise the Emission Trading Scheme and their potential impact on the new EU Investment plan.

We thank you for your attention to this important matter and remain available for further information you might request.

Yours sincerely,

CC: College of Commissioners and the Secretary General
