

[SUMMARIZED TRANALATION]

○ Manufactured Tobacco List Price Law (Law No. 122 of June 3, 1965; as amended)

Final Amendment: March 31, 1983

(Types and maximum prices of manufactured tobacco)

Article 1 The types of manufactured tobacco (hereinafter referred to as the “Manufactured Tobacco”) manufactured by the Japan Tobacco and Salt Public Corporation (hereinafter referred to as the “Corporation”) shall be cigarettes, flaked tobacco, pipe tobacco and cigar tobacco, and the maximum prices by grade for each of these types are stipulated as follows.

Type	Grade	Quality	Unit	Price
Cigarettes	1st grade product	The product is prepared using high quality leaf tobacco as the main raw ingredient, which is combined with other carefully selected raw leaf tobacco to produce a high grade brand which maintains distinctiveness and character	10 cigarettes	110 yen
	2nd grade product	The product is prepared using high quality and medium quality leaf tobacco as the main raw ingredient, which is combined with other	10 cigarettes	85 yen

		selected raw leaf tobacco to produce a medium-grade brand which maintains distinctiveness		
	3rd grade product	The product is prepared using medium quality and low quality leaf tobacco as the main raw ingredient	10 cigarettes	60 yen
Flaked tobacco	3rd grade product	The product is prepared using medium quality and low quality leaf tobacco for flaked tobacco which is the main raw ingredient	10 grams	30 yen
Pipe tobacco	1st grade product	The product is prepared using carefully selected and specially processed high quality leaf tobacco as the main raw ingredient, to produce a high grade brand which maintains distinctiveness and character	10 grams	142 yen
	2nd grade product	The product is prepared using selected and specially processed high quality and medium quality leaf tobacco as the main raw ingredient to	10 grams	82 yen

		produce a medium-grade brand which maintains distinctiveness		
Cigar tobacco	1st grade product	The product is prepared using high quality leaf tobacco for cigar tobacco as the main raw ingredient to produce a high grade brand which maintains distinctiveness and character	One cigar	410 yen
	2nd grade product	The product is prepared using medium quality and low quality leaf tobacco for cigar tobacco as the main raw ingredient	One cigar	120 yen

2. Notwithstanding the provisions of the preceding paragraph, if the Corporation manufactures cigarettes that are prepared by using particularly high quality leaf tobacco as the main raw ingredient and combining it with other carefully selected raw leaf tobacco to produce a high grade brand which maintains distinctiveness and character, then the maximum price of that product shall be 190 yen per ten cigarettes.

Article 2 *(Intentionally Omitted)*

Article 3 *(Intentionally Omitted)*

(Public Notice)

Article 4 When the Corporation determines and gives public notice of the list prices of the Manufactured Tobacco pursuant to Article 34, Paragraph 1 of Tobacco Monopoly Law (Law No. 111 of 1949; as amended), the Corporation shall concurrently publicize types, grades and standard specifications of the Manufactured Tobacco.

Supplementary Provisions

1. This law shall come into force from the date of promulgation of the law.
