**Subject:** Glyphosate - GTF Comments on draft ODD  
**Attachments:** 11921\_pathology report\_final.pdf; CLH draft opinion January 2017 - GTF comments\_FINAL.DOCX

Dear Tim, attached are the comments of the glyphosate GTF on the draft ODD supplied to aid the rapporteurs together with a report substantiating conclusions on the Kumar et al study (included in the draft CLH report and referred to in the draft-ODD). It's not new information but more specifically, a re-evaluation of the statistical analysis of histopathology findings recorded in the ([REDACTED]) No. [REDACTED], in which an increased incidence of malignant lymphoma was reported.

If feasible please share with the rapporteurs and experts.

Best regards
