Subject: BUSINESSEUROPE's assessment of the Commission proposal on a new Investment Court System

Dear Mr. Demarty,

First of all I would like to thank you for participating today at the International Relations Committee meeting of BUSINESSEUROPE. As usual we had a very interesting exchange.

As I have anticipated to you I am enclosing BUSINESSEUROPE's assessment of the European Commission's proposal on a new Investment Court System. This is the outcome of intensive discussions BUSINESSEUROPE had with members.

I am well aware of the difficult balance the Commission had to make in its proposal. From the start we have always recognised the need to modernise ISDS but we believe that the proposal currently on the table does not guarantee a sufficient level of protection for our companies when they are investing in Third Countries.

We are of course open to discuss further with you and your services.

Kind regards

Luisa
